MLB ROUNDUP

The Orioles' Ramon Urias celebrated after his first-inning three-run home run against Toronto in Baltimore on Monday night.

Urias' three-run homer kicks off Orioles victory

NEW YORK (AP) — Ramon Urias hit a three-run homer in the first inning, and Anthony Santander, Ryan Mountcastle and Austin Hays also went deep to lift the Baltimore Orioles to a 7-4 home victory over the Toronto Blue Jays on Monday night.

The Orioles pulled within three games of Toronto for the first wild card. This was the first of 15 meetings down the stretch between the Blue Jays and Orioles. "I don't know if it's a statement, I think that by swinging the bats really well," Baltimore manager Brandon Hyde said, "Nice to see us hit some homers."

Baltimore starter Jordan Lyles gave up a third-inning homer by Cavan Biggio, but the Orioles responded with back-to-back three-run homers by Santander and Mountcastle. Matt Chapman hit a solo homer for Toronto in the sixth, but Hays answered with one of his own in the bottom half.

MINNESOTA SCENE

Twins promoting Varland to Saints

Twins prospect Louie Varland is back in his hometown and one step away from the big leagues. The Twins promoted the 24-year-old righthander to Class AAA St. Paul on Monday. In 20 games (19 starts) at Class AA Wichita, Varland went 7-4 with a 3.34 ERA, with 109 strikeouts and 39 walks in 105 innings. His ERA and strikeouts rank second in the Texas League.

Varland

Varland, twice named Twins minor league pitcher of the week after the veteran righthander threw six shutout innings at Omaha on Thursday. The Saints' Derek Rodriguez was named International League pitcher of the week after the veteran righthander threw six shutout innings at Omaha on Thursday.

Skippers' Moore to U The Gophers men's hockey team landed its third recruit.

Listen now: On Monday's Sports "Daily Delivery" podcast, Michael Rand and Star Tribune columnist Patrick Reusse broke down the overhyped call on Sunday's Twins game that led to a 3-2 defeat, an ejection for manager Rocco Baldelli and a significant postgame rant. If you've followed the Twins the last few years, it's extremely rare to see Baldelli get that upset.

Coming today: Listen as Rand is expected to be joined by Minnesota United manager Adrian Heath, who will lead the Major League Soccer All-Star team in their match Wednesday against Liga MX All Stars at Allianz Field in St. Paul. Heath's Lions have had an uneven season, but they are currently fourth in the jam-packed Western Conference standings.

New episodes are posted weekly mornings. Podcasts and subscriptions available on any Star Tribune digital platform and popular podcast app.

## I. About AEPA

Welcome to The Association of Educational Purchasing Agencies (AEPA) annual solicitation. AEPA is a unique school procurement consortium established in 2000 and incorporated in 2007 under the state laws of Nevada. We are a consortium of non-profit public agencies representing twenty-nine (29) states. We joined to issue simultaneous Invitations for Bids (IFB), or Request for Proposals (RFP), generating sales for vendor partners in all fifty (50) states. **AEPA’s mission is to cooperatively serve our members** through a continuous effort to explore and solve present and future purchasing needs. Our goal is to secure multi-state volume purchasing contracts with benefits for our public members that are measurable, cost-effective, and exceed members’ expectations for customer service and value. AEPA is committed to accomplishing this mission lawfully and ethically, using leading-edge technology and contemporary business practices.

The advantage for vendors to work with AEPA is that you respond to one bid or proposal that is legally performed across as many as 29 states, which have the potential to sell nationwide. You are working with up to 29 agencies with a long and trusted history with their public membership. Through our partnerships, AEPA vendors have access to thousands of public agencies across the country. We are a multi-million-dollar procurement group through our current awarded vendors and are growing.

AEPA designates one Member Agency per state that is operating legally under the rules and regulations of that state. Any additional agencies that wish to participate will negotiate with the authorized Member Agency and participate through them in a manner in which they mutually agree is not in conflict with AEPA procedures. The Member Agency will be the only agency allowed to represent that state at AEPA and will be the only communication link between AEPA and that state.

Each Member Agency, along with the awarded Vendor Partner, represents, supports, and promotes the AEPA contracts within their respective state. While the consortium was initially created to support educational entities, the Member Agency for each state determines which public entities (higher educational institutions, cities, counties, townships, states, etc.) can utilize the competitively solicited contracts (see the Summary of State Participation by Solicitation Category Table). Participating entities may include Public and Private School Districts, Educational Service Agencies, Intermediate

School Districts, Higher Education Institutions, Federal Agencies, State Agencies, Local Public Bodies, and Nonprofit Non-Public Corporations, Organizations, other entities contracted to conduct business on behalf of a participating entity provided they are required to follow member state and local procurement regulations, etc. that have authorizations to utilize the AEPAMember Agencies' Awarded Contracts.

AEPA has an elected President, Vice President, Secretary, and Treasurer. Operations are overseen by the Executive Director. The AEPA Board representing member states meets twice per year and operates otherwise through a sophisticated committee structure.

## II. Solicitation Procedures

### A. Issuing Agency

The great benefit to the Vendor is that one response may be prepared for approval by AEPA and awarded by multiple AEPA Member Agencies and utilized by their Participating Entities located throughout many states. Solicitations may be issued as an IFB or an RFP depending on the category of goods/services being solicited. Respondents to a solicitation will submit their response in the required formats (PDF, Word, Excel) of all files requested along with complete catalogs via Public Purchase, a free online bidding platform, by the published due date and time. Respondents selected in response to this solicitation have the potential to provide products and services to local education agencies serving over 36,000,000 (excludes non-represented AEPA states) students, with additional local government agencies as permitted by state law.

Each AEPA Member Agency will individually publish notice of the solicitation. Respondents will submit responses online, electronically via Public Purchase ([www.publicpurchase.com](http://www.publicpurchase.com)). Instructions on registering for AEPA solicitations on Public Purchase can be found on the AEPA website, [www.aepacoop.org](http://www.aepacoop.org). Responses will be evaluated by solicitation category committees comprised of AEPA Member Agencies representatives who have indicated they will participate in the category of products and services being solicited, and after AEPA approval, individual AEPA Member Agencies may award contracts to the AEPA Approved Vendor Partners or reject their offers.

The procurement activities of AEPA are limited to document preparation, distribution of the solicitation, initial evaluation, and recommendation for possible approval to AEPA Member Agencies. AEPA consists of agency officials who have agreed to assist one another in meeting the public purchasing needs of local school districts and other political subdivisions.

Contracts awarded through cooperative purchasing must meet the procurement laws of the states of each AEPA Member Agency. When these laws are satisfied, an individual entity using these contracts is deemed in compliance with competitive procurement regulations. As allowed by specific state statutes, they can issue purchase orders for any amount without the necessity to prepare their own solicitation, Request for Proposal (RFP), or Request for Quotations (RFQ). This saves the entity time and allows for economical and efficient purchasing.

AEPA requires that Respondents only respond if they can offer prices equal to or better than what they ordinarily offer to individual entities or cooperatives with equal or lesser volume. State laws that permit or encourage cooperative purchasing contracts do so in the belief that it saves the participants both time and money. Time is saved by having access to volume discounted contracts publicly solicited and being able to purchase what is needed without having to wade through the solicitation process (write solicitation, advertise the solicitation, open each response, evaluate, and select). Money is saved in procurement cost and lower prices will be the result of volume purchasing. Therefore, a contract issued by a cooperative can be used by hundreds of separate political units; but if it has the same or higher prices than what a single agency or state contract can get through its own solicitation, a cooperatively solicited contract may not be attractive to these members. We request that Respondents respond with advantageous pricing and package so that together we can attract members to prefer the cooperatively awarded contract.

The AEPA policy for membership permits new agencies to become AEPA Member Agencies upon approval of existing members. If additional Agencies are added, they and their members may procure from existing contracts upon approval of the awarded Vendor Partners and in accordance with their state laws.

## B. Questions

All questions from Respondents must be submitted online through Public Purchase, AEPA will not accept questions in any other format during the solicitation process. All questions received during the solicitation process will be available via Public Purchase. All Respondents will be automatically notified through email when AEPA responds to a question asked by a potential respondent. It is the Respondent's responsibility to check Public Purchase for any questions and answers before the deadline. Questions received after the question deadline date will not be answered.

Should AEPA issue addenda during the solicitation process, all Respondents will be automatically notified through email of the released addenda. AEPA is not responsible for Respondents not acknowledging the issued addenda and not submitting a response according to those changes.

Questions regarding this solicitation after Opening, but before the approval of the contract, should be submitted to [questions@aepacoop.org](mailto:questions@aepacoop.org).

Questions regarding this solicitation after Notification of Approval should be submitted to [bid-committee@aepacoop.org](mailto:bid-committee@aepacoop.org).

## C. Respondent Qualifications

An essential part of the solicitation process is an evaluation to qualify the company being considered. All solicitations must contain answers, responses, and/or documentation to the information requested in the documents. Any Respondent failing to provide the required information/ documentation may be considered non-responsive, this includes submitting a response not in the proper format.

Respondents must demonstrate their ability, capacity, and available resources to provide the proposed products and services to 90% of the AEPA Member Agencies indicating an interest in participating in the categories being solicited unless otherwise noted in Part B – Technical Specifications of the category being solicited. The Respondents are required to communicate and demonstrate within their response they have extensive knowledge, background, and at least five (5) years of experience with manufacturing, obtaining, delivering, installing, maintaining, and/or supporting the product lines of products, equipment, services, or software offered. AEPA and/or its Member Agencies reserve the right to accept or reject newly formed companies or companies failing to demonstrate their abilities or capacity solely based on information provided in the solicitation response and/or its own investigation of the company.

## D. Bid/Proposal Security

If required, bids or proposals must be accompanied by a satisfactory security bond. This will vary by the goods/services requested and will be noted in Part B, Technical Specifications for that category.

If a security bond is required, a hard copy of the security must be in the actual possession of AEPA at Lakes Country Service Cooperative, ATTN: Purchasing Dept, 1001 E Mt Faith, Fergus Falls, MN 56537, on or before, the exact due date and time and a copy must be submitted via Public Purchase. Original copies of the security must be submitted in a sealed envelope properly addressed to the Association of Educational Purchasing Agencies, with the Solicitation Number, Solicitation Category, and Respondent's name and address clearly indicated on the envelope or box. AEPA will not reject a response from a Vendor whose bid bond has not arrived by the due date and time as long as a scanned copy of the bid bond dated prior to the due date is uploaded with their response and the actual bond is in transit.

An acceptable bid/proposal security will have the principal being the Respondent and the Association of Educational Purchasing Agencies listed as the Agency of Record. The Security may be a one-time bond underwritten by a surety company licensed to issue bonds in the state of Nevada and said surety to be approved in federal circular 570 as published by the United States treasury department or the equivalent in cash or an irrevocable letter of credit from a FDIC

financial institution. The security bond must remain in force for one hundred twenty (120) days of the solicitation opening.

- f. It is the responsibility of all Respondents to examine the entire solicitation package, to seek clarification of any item or requirement that may not be clear, and to check all responses for accuracy before submitting an offer. Negligence in preparing an offer confers no right of withdrawal after due time and date.
- g. The Respondents' ability to follow the preparation instructions set forth in this solicitation will also be considered to be an indicator of the Respondents' **ability to follow instructions** should they receive an award as a result of this solicitation. Any contract between the AEPA Member Agency and a Respondent requires the delivery of information and data. The quality of organization and writing reflected in the offer will be considered to be an indication of the quality of organization and writing which would be prevalent if a contract was awarded. As a result, the offer will be evaluated as a sample of data submission.

### 2. Document Development: Forms for this solicitation are published in Public Purchase, in Word, Excel, and PDF formats. Respondents may download the documents once they are registered with AEPA on Public Purchase. All documents must be titled properly and submitted in their required format as noted in the Solicitation Checklist.   - c. If the designated location for receiving the bid or proposal security is closed due to an unforeseen circumstance on the day the security is due (due date), the security will be due at the same time on the next day the building is open.   - e. Deviations or exceptions stipulated in response may result in the offer being classified as non-responsive. Language to the effect that the Respondent does not consider this solicitation to be part of a contractual obligation will result in that Respondent's offer being disqualified. Terms of the solicitation that any Respondent considers particularly unwarranted, and to which that would have to take significant exception in his/her offer, should be stated clearly and concisely as exceptions and/or deviations.

- f. In preparing a proposal, the Respondent's **inability to follow the proposal** preparation instructions set forth in this solicitation and its inability to provide written responses, narratives, requested and support documentation relating to the Respondent's **qualifications; abilities; capacity; products; specifications; delivery, installation, setup, maintenance; support services and pricing** utilized by AEPA evaluators may result in the Respondent's **offer** to be deemed non-responsive.

Offers deemed non-responsive will not be considered for approval and award.
3. **Responsible Respondent:** A responsible Respondent is a firm or person with the qualifications, capability, and capacity to perform the contract requirements with integrity and reliability, which will assure good faith performance. As a part of the process of determining responsible respondents during the evaluation period, the category committee may request reports that describe the financial soundness of your organization. You may be asked to include a third-**party report or reports that demonstrate your firm's strength**. Accepted financial reports may include balance sheets and Profit & Loss statements for the past three years, a Letter of Credit or Line of Credit from a bank or lending institution indicating the line of credit limit and the average outstanding balance, Dun & Bradstreet reports, a complete Annual Financial Report (for publicly traded companies).

as life-cycle costs, total cost of ownership, quality, and the suitability of an offering in meeting AEPA members' needs; or

- ii. Catalog Bid: Lowest responsive, responsible Bidder(s) is/are determined based on the price evaluation criteria; and by a "Core List" and/or by creating a "Market Basket Study" to compare overall pricing between Respondents. A "Market Basket" is a list of items typically purchased by AEPA Member Agencies and their Participating Entities that represent a cross-section of the types of those items purchased. The selection and quantity of line items evaluated will be at the sole discretion of the AEPA evaluators. Based on the cost evaluation, a recommendation will be made to approve a single Bidder or make a multiple Bidder award. The evaluation committee may consider such factors as life-cycle costs, total cost of ownership, quality, and the suitability of an offering in meeting AEPA members' needs.
- iii. Proposal: Identified weighted criteria for evaluation, including pricing, published in Part B of the solicitation.

#### G. Contract Award and Implementation

An AEPA category committee will perform initial response review and evaluation and will prepare and make a recommendation to AEPA for its consideration and approval. Those selected Respondents who are approved by AEPA will then be considered by the individual AEPA Member Agencies for contract award. It should be noted that once AEPA has approved the response, a Respondent becomes a "Vendor Partner" for AEPA.

All respondents will be notified of the outcome of the solicitation. Vendors recommended for award by AEPA states will be posted on the AEPA website.

Once the approved Respondents have been notified, it is their responsibility to contact those AEPA Member Agencies (up to 29) who had indicated an interest in participating and send Part C (if applicable), Part D, E, and F to each of the participating AEPA Member Agencies. Each AEPA Member Agency will review, evaluate, and determine which, if any, it will award contracts to.

The approved Vendor Partner and the AEPA Member Agency will hold final contract negotiations, if necessary, to work out state-specific details of contract implementation including:

1. Acquiring additional information and having discussions on how the awarded contract will be executed.
2. Signing the contract with the AEPA Member Agency.
3. Jointly develop marketing strategies and a plan for contract roll-out activities to the **AEPA Member Agency's Participating Entities (Advertising, flyers, website access, etc.)**.
4. Establish how orders will be processed, handled, and reported.
5. Contract management: Establish how and by whom the day-to-day contract **management will be handled and who will be the AEPA Member Agency's** representative.

It is not guaranteed that each AEPA Member Agency will enter into a contract with AEPA approved Vendor Partners. The final decision as to the appropriateness of a contract for a Member Agency rests solely with that AEPA Member Agency.

### III. Responsibilities of A Vendor Partner

- A. As an approved AEPA Vendor Partner, the following is expected in support of the contract:
  1. Designate and assign a dedicated senior-level contract manager (one authorized to make decisions) to each of the Member Agency accounts. This employee will have a complete copy and must have a working knowledge of the contract.
  2. Train and educate sales staff on what the AEPA cooperative contract promised, including pricing, who can order from the contract (by state), terms/conditions of the contract, and the respective ordering procedures for each state. It is expected that Vendor Partners will lead with AEPA contracts.

3. Develop a marketing plan to support the AEPA contract in collaboration with respective AEPA Member Agencies. The plan should include, but not be limited to, a website presence, electronic mailings, sales flyers, brochures, mailings, catalogs, etc.
4. Create an AEPA-specific sell sheet with a space to add a Member Agency logo and **contact information for use by the Member Agencies and the Vendor Partner's local sales representatives to market within each state.**
5. Quarterly, complete the sales and administrative fee report (see attached PDF example) and submit to each Member Agency along with the respective administrative fees to be paid. If there are no sales, a \$0 report is required.
6. Report sales and administrative fees by participating state if requested by AEPA.
7. Have ongoing communication with the Category Committee Chairperson, AEPA Member Agencies, and the Member Agencies Participating Entities.
8. Annually attend two (2) AEPA meetings: Annual meeting which is typically in April and the Winter Meeting which is typically the end of November or early December and has historically been held in conjunction with the Association of Educational Service Agencies (AESAs) annual conference. At the Annual Meeting, Vendor Partners participate in a round table meeting with each of the AEPA Member Agencies. Vendor Partners that have paid the registration fees can participate in the meetings.
9. Trade show support: Strongly encourage participation in national and local conference trade shows to promote the AEPA contracts such as, but not limited to, the Association of School Business Officials (ASBO), the National Institute of Governmental Purchasing (NIGP), and the National Association of Educational Procurement (NAEP).
10. Increasing sales over the term of the contract with all participating AEPA Member Agencies.

#### IV. Responsibilities of AEPA Member Agencies

A. In support of the Vendor Partner and respective contract, each AEPA Member Agency should provide the following support:

1. Designate a staff member(s) that will serve as a point person for the AEPA program within that state.
2. Provide a staff member to work collaboratively with the Vendor Partner to determine the best marketing plan for the respective Member Agency state. Marketing efforts may include but not be limited to the education and use of sales force, a website presence, electronic mailings, brochures, mailings, etc.
3. Develop marketing materials for the Member Agency to use that would include representation of the awarded contracts. Materials may include, but not be limited to, a website presence, electronic mailings, sales flyers, brochures, mailings, catalogs, etc. as determined by the respective Member Agency and what works best within their state.
4. Assist the Vendor Partner to jointly market the contract to potential Participating Entities within the state.
5. Work with the Vendor Partner to identify eligible Participating Entities within the state possibly including providing a list of potential customers.
6. Work with the Vendor Partner to identify and help manage costs associated with fulfilling this contract.
7. Attendance at the two (2) AEPA meetings which provides for an opportunity to interact with Vendor Partners.

#### V. General Terms and Conditions for All Agencies

*For the purposes of this Solicitation, the following terms must be defined as indicated below, and constitute the general terms and conditions for all AEPA Member Agencies:*

**Administrative Fee:** The percentage of sales that each Vendor Partner pays the Member Agency for sales in their respective state or states that they extend the AEPA pricing to. Administrative Fees must be paid to each Member Agency quarterly. See the Summary of State General Overview for the administrative fees by Member Agency (state).

Advertising: Vendor Partner must not advertise or publish information concerning this contract prior to the award being announced by the AEPA Member Agencies. Once the award is made, the Vendor Partner may advertise to the individual Participating Entities that products/services are available. Vendor Partner must submit ad copy to the AEPA Member Agency for review and approval prior to issuing the advertisement.

AEPA Bi-Annual Meetings: AEPA holds two general meetings each year: one in the Spring (usually in April or May) and the other in the Fall (currently the week after Thanksgiving). AEPA requires that all successful contract holders attend both meetings and participate in the vendor round tables at the Spring meeting. AEPA requests that all vendor partners register in advance and stay at the AEPA official hotel if rooms are available. All registrations for the meetings are required by the official registration due date as announced by AEPA.

AEPA Member Agency: Refers to the entities identified in the table in Part I of this document who are approved as AEPA members. Member Agencies participating in a particular category are listed in Part B - Specifications, Item 3: Anticipated Member Agency Participation. "Direct or Indirect Participation" may include their involvement through the formulation of any part of a procurement activity; the influencing of the content of any term, condition and/or specification; the evaluation, investigation, auditing and/or the rendering, of advice, recommendation, decision, approval, disapproval and the award and implementation of procurement contract. Not every listed entity may elect to participate in a solicitation once the responses are reviewed and approved.

Affirmative Action: An Affirmative Action Plan, Certificate of Affirmative Action, or other documentation regarding Affirmative Action may be required by AEPA Member Agencies. Vendors must comply with requirements and/or requests for information regarding Affirmative Action by Member Agencies.

Amendment of Solicitation: A solicitation may be amended up to the time of opening.

Applicable Law: The laws of the state of the respective AEPA Member Agency must govern any resulting contract of this solicitation. Suits pertaining to this contract may be brought only in courts in the County and State as prescribed by the AEPA Member Agency. Both parties agree that the Uniform Commercial Code, as adopted by the State of the AEPA Member Agency, must fully apply. The Vendor Partner must comply with any and all laws, whether local, state, federal or otherwise, applicable to any aspect of the work to be performed in relation to the resulting contract. It must **be the Vendor Partner's responsibility to identify, make themselves aware** of, and determine the applicability and requirements of any such laws and to abide by them.

Approval and Awarding of Contract: AEPA and its AEPA Member Agencies reserve the right to approve and award a contract to one Vendor Partner, to make multiple approvals and awards, to reject any or all offers in whole or in part, to waive any minor formalities or irregularities in any offers, and to accept offers, which in its discretion and according to law may be in the best interest of the AEPA Member Agencies and their Participating Entities. A response to this solicitation is an offer to contract with the AEPA Member Agencies based upon the terms, conditions, and scope of work and specifications contained in this invitation. A solicitation does not become a contract unless and until it is accepted, recommended, and approved by AEPA and awarded by the individual AEPA Member Agency. A contract is formed when an AEPA Member Agency administrator and, if required, an AEPA Member Agency Board approves and signs the Acceptance of Solicitation and Contract Award Form (see Form E) document, eliminating the need for a formal signing of a separate contract.

Assignment: No right or interest in this contract must be assigned or transferred by the Vendor Partner without prior written permission by AEPA and its AEPA Member Agencies, and no delegation of any duty of the Vendor Partner must be made without prior written permission by the AEPA Member Agency. AEPA and its AEPA Member Agencies must not unreasonably withhold approval and must notify the Vendor Partner within fifteen (15) days of receipt of written notice by the Vendor Partner.

Audit Rights: In accordance with applicable law of the State of the AEPA Member Agency, the **Vendor Partner's** books, and pertinent records related to this contract may be audited at a reasonable time and place.

Authority: This solicitation, as well as any resulting contract/agreement, is issued under the general authority of the State laws of the AEPA Member Agency and those identified within the **AEPA Member Agencies' Specific Terms and Conditions, Part C, (see also Procurement Code below)**. Internal or external Cooperative Purchasing Agreements between the AEPA Member Agency and Participating Entities may exist.

Respondent/Bidder/Vendor Partner Definitions:

Bidder, Respondent, Offeror, and Vendor Partner are interchangeable and are used to identify the person(s) or firm(s) submitting a response to an Invitation for Bid or Request for Proposal.

1. Prospective Respondent/Bidder/Offeror: has notified AEPA of a desire to bid by **registering on the AEPA website. "Bidder" has submitted** an offer to AEPA in response to an AEPA solicitation.
2. Recommended Respondent/Bidder/Offeror: has been approved by AEPA for its AEPA Member Agencies for contract consideration.
3. Vendor Partner: has entered into a contract with a participating AEPA Member Agency or subsequently a Participating Entity.

Respondent Acceptance Period: To allow AEPA Member Agencies the opportunity to evaluate the offers, AEPA requires that an offer in response to this solicitation be valid and irrevocable for one hundred twenty-days (120) after opening time and date.

Performance Bonding (required for construction projects): Performance bonds are completed after the contract and at the time a member authorizes a project. The Vendor Partner agrees to provide all performance and payment bonds for individual projects executed by a **surety company authorized to do business in the individual AEPA Member's state and said surety to be approved in federal circular 570 as published by the United States treasury department, the state or the local governing authority, in an amount equal to one hundred percent of the price specified in the contract; when required by an AEPA Member Agency or Participating Entity at the time a contract is executed. If the Vendor Partner fails to deliver any required performance or payment bonds, the AEPA Member Agency or Participating Entity must not execute the contract or terminate the contract with the Vendor Partner and the appropriate AEPA Category Committee must be notified of such failure and must take the appropriate action.**

Brand Names: The use of the name of a manufacturer, brand, make or catalog number does not restrict the Respondent. Brand names and model numbers are used to indicate the character, quality, and/or performance equivalence of the commodity on which offers are submitted. Respondents may submit alternates. However, the AEPA reserves the right to decide whether alternatives to the identified manufacturer and brand are equal to the product, equipment, and/or **service described in the invitation. AEPA's decision** must be final.

Buyer: Identifies the AEPA Member Agencies and their Participating Entities that acquire and purchase commodities, supplies, materials, equipment, and services under **AEPA Member Agencies' awarded contracts.**

Captions, Headings, and Illustrations: The captions, illustrations, headings, and subheadings in this solicitation are for explanation only and in no way define, limit, or describe the scope or intent of the request.

Certification: By signature in the solicitation section of the Contract Award page, the Respondent certifies: the submission of the offer did not involve collusion or other anti-competitive practices; the Respondent must not discriminate against any employee, or applicant for employment in violation of Federal and State Laws (see Federal Executive Order 11246); the Respondent has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor or service to a public servant in connection with the submitted offer; and the Respondent agrees to promote and offer to AEPA Member Agencies and Participating Entities only those materials and/or services as stated in and allowed under resultant contract(s) awarded.

Christian Doctrine: Any federal, state, **and local governing authority's/jurisdiction's statutes**, codes, rules, and regulations referenced and/or govern the products, services, and activities relating to and are part of this solicitation, whether or not physically noted or included, must be complied with, and adhered to as required. It is the sole responsibility of the Respondent to perform and complete any necessary research and investigation required to make themselves aware of and comply with this item.

Clarification: As used in this solicitation, clarification means communication with a Respondent for the sole purpose of eliminating minor irregularities, informalities, or apparent clerical mistakes in the solicitation. It is achieved by explanation or substantiation, either in response to an inquiry by the AEPA Member Agency or as initiated by the Respondent. Clarification does not allow the Respondent to revise or modify its solicitation.

Commercially Available Catalog: A published paper catalog or an online website that is widely distributed or accessible to a wide population or set of businesses across the United States. It is made available to the general public, public or nonprofit entities and contains a verifiable price, along with product descriptions, SKU numbers, and photographs. A commercially available catalog is distinct from a custom catalog or website, whose prices and offerings are tailored to niche audiences, or are targeted to a small geographic location. The prices published in a Commercially Available Catalog will be considered a company's base pricing or "commercially available pricing" for the purpose of AEPA bids or proposals. All pricing must be in U.S. Dollars. AEPA will not accept an artificial catalog or price list, or base price created for the purpose of responding to a competitive solicitation.

Competitive Range: AEPA and its AEPA Member Agencies reserve the right to establish a competitive range of acceptable responses as part of the evaluation process as defined herein. Responses below the competitive range will be determined to be unacceptable and will not receive further consideration.

Contract Documents: AEPA Member Agency will review proposed contract documents. Vendor **Partner's contract document** must **not become part of AEPA Member Agency's contract with Vendor Partner** unless and until an authorized representative of an AEPA Member Agency reviews and accepts it.

Construction: Each AEPA Member Agency within their state statutes defines what constitutes construction, identifies the policies, rules, regulations, and codes that govern construction projects. AEPA has defined construction as building, altering, repairing, installing or demolishing in the ordinary course of business any road, highway, bridge, parking area or related project; building, stadium or other structure; airport, subway or similar facility; park, trail, athletic field, golf course or similar facility; dam, reservoir, canal, ditch or similar facility; sewage or water treatment facility, power generating plant, pump station, natural gas compressing station or similar facility; sewage, water, gas or other pipelines; transmission line; radio, television or other towers; water, oil or other storage tanks; shaft, tunnel or other mining appurtenance; electrical wiring, plumbing or plumbing fixture, gas piping, gas appliances or water conditioners; air conditioning conduit, heating or other similar mechanical work; or similar work, structures or installations. Construction must also include leveling or clearing land; excavating earth; drilling wells of any type, including seismographic shot holes or core drilling; and similar work, structures, or installations.

Cooperative Procurement: Some individual state procurement codes may contain cooperative purchasing statutes that state any state agency or local public body may either participate in, sponsor or administer a cooperative procurement agreement for the procurement of any services, construction or items of tangible personal property with any other state agency, local public body or external procurement unit in accordance with an agreement entered into and approved by the governing authority of each of the state agencies, local public bodies or external procurement units involved. The cooperative procurement agreement must clearly specify the purpose of the agreement and the method by which the purpose will be accomplished. Any power exercised under a cooperative procurement agreement entered into according **to each state's procurement code** must be limited to the central purchasing authority common to the contracting parties, even though one or more of the contracting parties may be located in different states.

Cooperative Purchasing Contracts: The Vendor Partner agrees that all the prices, terms, warranties, and benefits granted by the Vendor Partner to AEPA Member Agencies or Participating Entities through this contract will be equal to or better than those offered to any individual entities or cooperatives that have equal or lesser volume. If the Vendor Partner must, during the term of this Contract, enter into arrangements with any customer or cooperative providing greater benefits or terms that are more favorable, the Vendor Partner must notify the AEPA category committee chairman and offer said prices, terms, warranties, and benefits to all AEPA Member Agencies. The following must be noted:

1. AEPA and its AEPA Member Agencies reserve the right to accept or reject the Respondent's offer if it is determined it does not comply with the above based on their knowledge, investigation, review, and findings of Respondents' **submitted prices**.
2. In the event the Vendor Partner offers lower prices to another customer or cooperative, AEPA and its AEPA Member Agencies must notify the Vendor Partner of the deviation and request **written justification. Based on AEPA and its AEPA Member Agencies' investigation**, review, and findings, AEPA reserves the right to take the following actions: to request the Vendor Partner **to immediately adjust its AEPA's offered prices to match the lower prices offered, to work with** the Vendor Partner to mediate and resolve the situation; or to notify the Vendor Partner that it intends to suspend and/or terminate their contract.

Cost of Preparation: Neither AEPA nor any AEPA Member Agency must reimburse the cost of developing, presenting, or providing any response to this solicitation.

Credit Hold: The Vendor Partner must agree not to place the AEPA Member Agency and/or its **Participating Entity on "credit hold" without 10-days** advanced notice in writing, either by letter, facsimile, or email to the AEPA Member Agency and the Participating Entity. The AEPA Member Agencies believe it is better for the Vendor Partner if the AEPA Member Agency places the **slow-paying Agency Member on "credit hold;" if a Vendor Partner places the Participating Entity on credit hold**, agencies that pay promptly are penalized. If, on the other hand, the Member Agency places the offending Participating **Entity on "credit hold", payment is more likely to result and only** the offender is disciplined.

#### Delivery Terms, Conditions, and Requirements

1. Delivery: is to be made within the specified time identified in Part B Specifications for each solicitation category, unless otherwise stipulated in writing and accepted by all parties (Buyer placing order and Vendor Partner). The Vendor Partner agrees to notify the Buyer if an order cannot be processed within the specified period and/or the agreed-upon timelines.
2. The title and risk of loss of material or service: must not pass to the Buyer purchasing the material or services until it receives the material or service at the point of delivery (FOB Destination), and they have been accepted, unless otherwise provided within this document or **individual project's contract**.
3. Ownership of products and services happens only after receipt and acceptance of delivery by the Buyer. The Buyer will be the determining judge of whether materials and services delivered under the purchase order/contract satisfy the specifications and requirements as identified in the contract/order.

4. Fungible Goods: Title to an undivided share or quantity of an identified mass of fungible goods will not pass to a Buyer until the separation of the purchased share has been made, delivered, and received.
5. Shipping Terms: (See Part B Specifications for specific instructions on shipping and handling costs for the individual category you are responding to.) Vendor Partner must retain the title and control of all goods until they are delivered and received. All risks of transportation and all related charges must be the responsibility of the Vendor Partner unless other arrangements have been made between the vendor partner and the AEPA Member Agency. Shipping must be FOB destination. The Vendor Partner must file all claims for visible or concealed damage. AEPA Member Agency, or the receiving Buyer, will notify the Vendor Partner and/or Freight Company promptly of any damaged goods and must assist the freight company/Vendor Partner in arranging for inspection. No FOB vessel, car, or other vehicle terms will be accepted.
  - a. Shipping Costs: Products may be shipped without separate shipping costs. If shipping is allowed as a separate line item per Part B Specifications and charged, the actual cost of delivery may be added to an invoice. No COD orders will be accepted unless specifically requested by the AEPA Member Agency.
  - b. Shipment under Reservation: Vendor Partner is not authorized to ship materials under reservation and no tender of a bill of lading will operate as a tender of the materials.
  - c. Shipping Errors: Vendor Partner agrees that shipping errors will be at the expense of the Vendor Partner. For example, if a Vendor Partnerships a product that was not ordered, it is the responsibility of the Vendor Partner to pay for return mail or shipment.
6. Stored Materials (vendor managed inventory): Upon prior written agreement between Vendor Partner and Buyer, payment may be made for materials not incorporated in the work but delivered and suitably stored at the site or some other location, for installation at a later date. An inventory of the stored materials must be provided to the Buyer prior to payment. Such materials must be stored and protected in a secure location and be insured for their full value by Vendor Partner against loss and damage. Vendor Partner agrees to provide proof of coverage **and/or addition of Buyer as an additional insured upon Buyer's request. Additionally, if stored** offsite, the materials must also be clearly identified as the property of the Buyer and be separated from other materials. The buyer must be allowed reasonable opportunity to inspect and take inventory of stored materials, on or offsite, as necessary. Until final acceptance by Buyer, it must be the Vendor Partner's responsibility to protect all materials and equipment. Vendor Partner warrants and guarantees that title for all work, materials, and equipment must pass to Buyer upon final acceptance. Payment for stored materials must not constitute final acceptance of such materials.
7. Improper delivery: Unless contrary to other parts of this solicitation, if the goods, services, or tender of delivery fail in any respect to conform and adhere to the terms, conditions, specifications of the resulting contract based on this solicitation and/or the individual **Buyer's** contract/order. The Buyer may reject the whole, accept the whole, or accept any commercial unit or units and reject the rest.
8. Defective Goods: Vendor Partner agrees to pay for return shipment on goods that arrive in a defective or inoperable condition. Vendor Partner must agree to arrange for return shipment of damaged goods.
9. Liquidated Damages: The Buyer may suffer financial loss if the project is not substantially complete, or products or services are not delivered on the established date. The Vendor Partner (if applicable surety) must be liable for and must pay to the Buyer, not as a penalty, the sums that may be hereinafter agreed upon as liquidated damages per calendar day of delay until the work and/or delivery is determined by Buyer to be complete and/or delivered. Liquidated damages will be determined on a project-by-project basis.
10. No Replacement of Defective Tender: Every tender of materials must fully comply with all provisions of this contract. If tender is made which does not fully conform, this must constitute a breach, and Vendor Partner must not have the right to substitute a conforming tender without the written consent of all parties involved.
11. Default in One Installment to Constitute Total Breach: Vendor Partner must deliver conforming materials in each installment or lot of this contract and may not substitute nonconforming materials. The AEPA Member Agency reserves the right to declare a breach of

contract if the Vendor Partner delivers nonconforming materials or services to any Buyer under this contract.

12. Restocking Fees: A restocking fee may only be charged on products ordered and delivered to **the Buyer's site in accordance with the order/contract. Restocking fees in excess of 15% will not** be allowed. Restocking fees may be waived, at the option of the Vendor Partner. The Vendor Partner must identify, specify, and justify any exceptions or deviations taken.

Deviations or Exceptions to Requirements: Deviations or exceptions stipulated in a Respondent's **proposal may** result in the rendering of the response non-responsive. AEPA and its AEPA Member Agencies reserve the right to determine whether the deviation or exception does or does not serve the interest of or is not advantageous or acceptable to AEPA, its AEPA Member Agencies, or Participating Entities.

Disbarment and Suspension: By signature accepting Terms and Conditions, it is certified on behalf of the company and their key employees that neither the company nor its key employees have been proposed for debarment, debarred, or suspended by any State or Federal Agency within the last five (5) years. If within the past five (5) years, any Respondent has been disbarred, suspended or otherwise lawfully precluded from participating in any public procurement activity with a federal, state or local government, the Respondent must include a letter with its response that includes the name and address of the public procurement unit, the effective date of the suspension or debarment, the duration of the suspension or debarment, and the relevant circumstances relating to the suspension or debarment. Any failure to supply such a letter or to not disclose in the letter all the pertinent information may result in the cancellation of any resulting contract. By signing the solicitation section, the Respondent certifies that no current suspension or debarment exists.

EDGAR (2 CFR 200) Compliance: Respondents are required to complete Education Department General Administrative Regulations (EDGAR) compliance certification. EDGAR regulations govern all federal grants awarded by the U. S. Department of Education on or after December 26, 2014.

Eligible Entities: **The individual AEPA Member Agency's state procurement code and statutes** provide for cooperative procurement and identifies those types of agencies, entities, and organizations that are allowed to participate in and take advantage of cooperative procurement contracts solicited and approved by AEPA and awarded by AEPA Member Agencies. Therefore, depending on the individual state procurement codes and statutes federal agencies, state agencies, local public bodies, and Non-Profit/Non-Public entities may be allowed to participate in and utilize AEPA solicited, approved and AEPA Member Agency awarded contracts.

Estimated Quantities: In Part B: Specifications of this solicitation, AEPA, and AEPA Member Agencies have indicated their anticipated volume for the products and services requested. It is anticipated that a considerable amount of activity will result from this solicitation; however, there is no guarantee of future order quantities since this is an indefinite-quantity contract. Usage depends on the actual needs of the AEPA Member Agencies, their Participating Entities, and the marketing by the Vendor Partner.

Experience, Proven Track Record and Past Performance Information: it has been determined by AEPA and its AEPA Member Agencies to be a major factor in consideration if a Respondent possesses the ability, capacity, and resources to acquire, manufacture, deliver, construct, install, services and support all of the procurement functions and activities involved in a national contract of this nature. AEPA and its AEPA Member Agencies reserve the right to accept or reject an offer if, in its judgment, the Respondent failed to demonstrate the following: a proven track record in the products and services offered (qualifications, knowledge, and background); is willing and able to deliver the proposed products and/or services to ninety (90%) percent of those participating AEPA Member Agencies identified in Part B (unless otherwise noted in Part B): Specifications; and has provided relevant information regarding its actions under previously awarded contracts to schools, local, state, or federal agencies. It includes the Respondent's **record**

of conforming to specifications and standards of good workmanship; the Respondent's **record** of containing and forecasting costs on any previously performed cost-reimbursable contract schedules, including the administrative aspects of performance; the Respondent's **history** for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the Respondent's **businesslike concern for the interests of the customer**.

External Procurement Unit: means any procurement organization not located in a current AEPA Member Agency state which, if located in the state, would qualify as a federal or state agency or a local public body. Various state procurement codes allow external procurement units to offer their contracts and for agencies within those states to utilize those contracts to acquire goods and services.

Federal Agency [25] USC 3001 (4): Is defined as any department, agency, or instrumentality of the United States, any executive department, military department, government corporation, government-controlled corporation, or other establishments in the executive branch of government, including the Executive Office of the President or any independent regulatory agency established through legislative and/or administrative action.

In such projects, the Vendor Partner agrees to post wage rates at the worksite and submit a copy of their payroll to the AEPA Member Agency for their files. Also, to comply with the Copeland Act, the Vendor Partner must submit weekly payroll records to the AEPA Member Agency. The Vendor Partner must keep records for three (3) years and allow the federal grantor agency access to these records, upon demand. All federally assisted contracts to an AEPA Member Agency that exceed \$10,000 may be terminated by the federal grantee for noncompliance by the Vendor Partner. In projects that are not federally funded, Vendor Partners must agree to meet any federal, state, or local requirements, as necessary. Also, if compliance with the federal regulations increases the contract costs beyond the agreed-on costs in this solicitation, the additional costs may only apply to the portion of the work paid by the federal grantee. On all other projects, the prices must agree with this contract. Vendor Partner must comply with all applicable standards, orders, or requirements issued under Section 306 of the Clean Air Act (42 U.S.C.) 187 [h], and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251 et. Seq.); and, Executive Order 11738 and Environmental Protection Agency (EPA) regulations (40 CFR Part 15), which prohibit the use under non-exempt federal contracts, grants, or loans of facilities included in the EPA list of violated facilities.

The term "force majeure" means an occurrence** that is beyond the control of the party affected and occurs without its fault or negligence, including, but not limited to the following: acts of God; acts of the public enemy; war; riots; strikes; mobilization; labor disputes; civil disorders; fire; flood; blizzards; earthquakes; tornadoes or violent winds; hail storms; lockouts; injunctions-intervention-acts, or failures or refusals to act by government authority; and other similar occurrences beyond the control of the party declaring force majeure, which such party is unable to prevent by exercising reasonable diligence. The force majeure must be deemed to commence when the party declaring it notifies the other party of the existence of the force majeure and must be deemed to continue as long as the results or effects of the force majeure prevent the party from resuming performance in accordance with the contract. Force majeure must not include late deliveries of equipment or materials caused by congestion at **a manufacturer's plant or elsewhere, an oversold condition of the market, inefficiencies, or similar**

occurrences. If either party is delayed at any time by force majeure, the delayed party must notify the other party in writing of such delay within forty-eight (48) hours.

Form of Contract: The form of contract for this solicitation must be the published solicitation, the awarded **Vendor Partner's** response, and properly issued purchase orders and/or contracts in accordance with this solicitation. If a firm submitting an offer requires AEPA Member Agency and/or Participating Entities to sign an additional contract, a copy of the proposed contract must be included with these.

Gratuities: AEPA Member Agency may, by written notice, cancel this contract if it is found that gratuities, in the form of entertainment, gifts or otherwise, were offered or given by the Vendor Partner or any agent or representative of the Vendor Partner, to any employee of the AEPA Member Agency with a view toward securing a contract or with respect to the performance of this contract. However, paying the expenses of normal business meals, which are generally made available to all eligible school and government employees, must not be prohibited by this paragraph. For the purpose of the IFB, a Bidder opting to offer a HUB program, may self-define the types of HUB businesses it includes in its network of HUB partners and the role they play; however, the Bidder must ensure that the partner-**authorized HUBs provide a “Commercially Useful Function.” As it related to HUB businesses, a “Commercially Useful Function” (CUF)** is work that is integral to sales, delivery, or supply-chain solution, and not a mere façade for the pass through of goods. Examples of HUB work that qualify as a Commercially Useful Function include instances when HUBs:

- **Provide services work that is normal for the firm's assortment of business services.**

2. **Subcontractor's Insurance:** Prior to commencing any work, any Subcontractor must procure and maintain, at its own expense until final acceptance of the work, insurance coverage in a form, and from insurers acceptable to the prime Vendor Partner. All Subcontractors must hold the appropriate type and amount of insurance coverage required by the AEPA Member Agency state in which the work is being done and will provide insurance, which waives all subrogation rights against the prime Vendor Partner, AEPA Member Agency and its Participating Entities.

It is also the responsibility of the Respondent/Vendor Partner to ensure that any Subcontractors performing under this solicitation hold and maintain the appropriate licenses/registrations. Modification by Buyer: Vendor Partner must have no obligation with respect to any patent and **copyright infringement claim based upon Buyer's modification of the equipment and/or software**, or its operation or use with apparatus, data or programs not furnished by Vendor Partner. **However, one Buyer's action will not preclude Vendor Partner's obligation to others not having** modified their equipment or software.

Money: All transactions are payable in U.S. currency only. Multiple Approvals and Awards: throughout the United States, AEPA Member Agencies have a large number of Participating Entities who take advantage of and utilize awarded contracts. To assure that any issued contract will allow these entities to fulfill current and future needs and requirements, AEPA and its AEPA Member Agencies reserve the right at its discretion to approve and/or award one contract, multiple contracts, or no contracts. 3. General terms and conditions
4. Attachments and exhibits
5. Documents referenced or included in the solicitation.

Overcharges by Antitrust Violations: Member Agency maintains that, in actual practice, overcharges resulting from antitrust violations are borne by the Buyer. Therefore, to the extent permitted by law, the Vendor Partner hereby assigns to the Member Agency any and all claims for such overcharges as to the goods or services used to fulfill the contract.

Pricing: AEPA has identified and stipulated the type of bid and the pricing methodologies that are to be utilized to price and submit bid or proposal prices. The Vendor Partner agrees that the cost for any item bid or offered on this contract will be uniform for all states and that any differences in pricing are due to state-specific installation and labor costs, AEPA Member Agency's Administrative Fee, or other approved reasons. The Respondent must provide their pricing as requested utilizing the various pricing methodologies specified. The Respondent/Vendor Partner must agree that they will not offer or provide a better price to any individual entities or cooperatives with equal or lesser volume than that through AEPA. Please note the following that relates to pricing:

1. Primary Pricing Strategies for Bids: All Respondents will be required to submit "**Primary Pricing**" in the form of either "**Catalog Pricing**" or "**Line-Item Pricing**" or a combination of these two pricing strategies, or Proposal (RFP) pricing as defined in Part B, solicitation specifications. Respondents are also encouraged to offer OPTIONAL pricing strategies including short term pricing discounts/incentives and volume discounts.
  - a. Catalog Pricing: Catalog pricing is utilized when the products and/or services solicited are clearly identified with set and specific characteristics, attributes, and configurations that are identifiable as a stand-alone single unit and can be listed and priced as a single unit with options that can be added to enhance and/or improve its operation and functionality. The Respondent offers a fixed discount(s) off the retail price, catalog price, published price, or list price. The discounts may be for the entire commercially available

catalog, for specific products, product lines, manufacturers, or category of products as determined by the Respondent and in conformity with the scope of the solicitation.

- i. Discounts: Discount offers must clearly identify the percent of discount to apply to a commercially available catalog, manufacturer, manufacturer's suggested retail price (MSRP), retail, or nationally published price lists. Respondents must identify and stipulate if the discounts apply to the entire catalog/price list, specific product lines, manufacturers, and/or categories of products. Respondents must agree that there will be no reduction in discount(s) during the term of the contract.
  - ii. New Catalogs/Price Changes: New catalogs and corresponding nationally published price lists may be submitted throughout the term of the contract and must be submitted to the AEPA Category Committee for review prior to release to all AEPA Member Agencies. Prices may change based on **manufacturer's price** changes, newly published pricing, or price lists, but the original discount bid must remain firm for the duration of the contract. New catalogs/products must conform to the scope of the solicitation.
  - iii. Core List: In a Catalog Priced solicitation, a category (i.e., office supplies) may include a "**core list**" which contains a selection of the most commonly used products/services with the expectation that a deeper discount would be bid for these items. If a new catalog and price list are published during the contract term, the original discounts must be applied to the newly published prices to establish the AEPA price for these core items.
  - iv. Product Addition/Discontinuation: New products, within the same scope of work, may be added at the established percentage discounts at any time. Discontinued products may be dropped at any time during the year. In the event a Core item is discontinued by the manufacturer during the term of the contract, Vendor Partner is required to add a functionally equivalent substitute at the same discount structure.
- b. Line-Item Pricing: Line-item pricing is utilized when products and/or services that are broken down in detail by element, component, product categories, product type, and each product and/or service is presented as an individual item which needs to be combined with other items to make up a final project or solution. The Respondent offers firm pricing for specific line items in response to this bid; a **project's** cost is derived by the Vendor Partner preparing and providing a quote based on the **project's** terms, conditions, and requirements based on the line-item pricing provided in the bid. The information provided in this bid for each item includes: Product Category, Product Description, Manufacturer, Manufacturer SKU, Vendor SKU, Unit of Measure, Item List Price, AEPA Bid Price.
- i. Fixed prices: Prices bid must be firm until each anniversary date of the contract, unless there is an occurrence of one or more economic price adjustment contingencies outlined in the bid. Fixed price offers must include prices for any and all items.
  - ii. Routine Price Adjustments (Without Economic Price Adjustment): Vendors may request adjustments to the prices by submitting a fully documented written request to the AEPA Category Committee Chairperson. The request must specifically detail and document the cause and/or reason for price changes and include any supporting documentation (**manufacturer's** letter, indexes, etc.). All price changes require approval by the AEPA Category Committee.
  - iii. Unpredictable Economic Price Adjustment: If economic price adjustment contingencies occur, Vendor Partner may submit a fully documented request (**manufacturer's** letter, indexes, etc.) for a price adjustment to AEPA Category Committee for review and approval by the committee. The documentation must substantiate the cause and/or reason for the requested price increase and demonstrate that it was unpredictable at the time of bid submittal and/or contract renewal and out of the Vendor **Partner's** control. Pricing will take effect upon approval.
  - iv. New Products/Services: Vendor Partner may submit new products or

technologies that are within the original scope of work for the bid, to be added to the contract pending review and approval of the AEPA Category Committee. Requests should be submitted to the AEPA Category Committee for review and written approval.

- c. Automated System for Pricing (ASP): The method consisting of an ASP and/or software application (e.g., RSMMeans) that is self-contained and consists of a turn-key solution that includes a complete line-item listing of all of the products, supplies, materials, equipment, services, accessories and options with their description, specifications, terms, conditions and associated pricing for each item, sub-assemblies and/or assemblies. The Bidder provides a percent of discount or fixed multiplier/factor to be applied to total project cost to allow for individual state conditions and requirements and to arrive at the AEPA price.
- d. RSMMeans (Construction Related Bids only): It is important for Vendor Partners to breakout all costs (quantity and price) of all items listed under RSMMeans or an Alternative Pricing method. This includes all quoted items not on the approved AEPA bid submittal. The following are minimum requirements for using RSMMeans for quoting projects to AEPA Member Agencies:
  - i. The Contractors must use the current year and standard cost data. Only the following cost data titles will be excepted:
    - a. Building Construction Cost Data Book
    - b. Facilities Construction Cost Data
    - c. Facilities Maintenance & Repair Cost Data
    - d. Site Work & Landscape Cost Data Book
  - ii. All work proposed under RSMMeans must use RSMMeans format, even if subcontractors are used.
  - iii. An RSMMeans spreadsheet must be submitted to substantiate the quote given to the AEPA Member Agency. The spreadsheet columns must reveal the full RSMMeans number and a sufficient amount of the description. This also applies to change orders.
  - iv. Pricing must be done by Location codes. National Average will not be allowed. To choose the “closest” location code, the first three (3) numbers of the zip code will be used to determine the city location index in the AEPA Member Agency State.
  - v. The AEPA contract holder factor, bonding cost, AEPA discount, and taxes if applicable must be shown as separate line items at the bottom of the RSMMeans spreadsheet. This information can be shown on a separate summary sheet. The summary sheet must start with the RSMMeans spreadsheet total and show the detail for each of the items stated above. This detail will be provided to that AEPA State Agency and the AEPA Buyer as required.
  - vi. All change orders which list items covered by RSMMeans must be supported by an RSMMeans spreadsheet.
- e. Alternative Method of Costing: This method covers any product and/or service not covered by catalog pricing, published price list, line-item price list, automated system for pricing, or is a product and/or service due to the projects or applications specifications, conditions and /or requirements that need to be custom-designed, developed, manufactured and/or produced to meet the requirements of an individual, project, or sole source. The alternative pricing is calculated as follows:
  - i. The Bidder must prepare, issue, and receive three written quotes from available suppliers and select the supplier that offers the products and services that meet the stipulated requirements and specifications, offers the best value, and the most cost-effective solution.
  - ii. All quotes must be made available upon request.
  - iii. The Bidder must indicate the percent of overhead and /or markup as part of their response to be added to these costs to obtain the normal and customary retail price.
  - iv. The AEPA price is calculated by taking the product and services to cost to the

Contractor plus the indicated percent of profit/overhead to equal the normal and customary retail price. The Contractor will then subtract the approved AEPA discount to obtain the AEPA price. Example: item cost \$1,000; percent of profit/overhead of 20% equals retail price of \$1,200; less the AEPA discount of 10% or \$120 equals the AEPA price of \$1,080.

2. Secondary Pricing Methods (Catalog based solicitations only, see Part B for category designation): Respondents are encouraged to offer Customized Price Lists (Catalog solicitations ONLY), as well as short term pricing reductions/incentives and volume discounts as follows:
  - a. Customized Price List: Respondents are encouraged to offer customized price lists to Participating Entities for items within the Vendor Partner's Commercially Available Catalog for Catalog solicitations ONLY (not pertinent to Line-Item Bids). Customized price lists must be allowed under the following conditions:
    - i. Items within the Vendor **Partner's** Commercially Available Catalog may be included on the customized price list providing they are not already on the Core Item list.
    - ii. Items are to be determined by the Participating Entity; Vendor Partner may object to up to ten (10) of the suggested items proposed by the customer and must offer substitutes until an agreement of the customized list is reached.
    - iii. Items on the customized price list must be sold with an additional discount (deeper than what was originally bid on the non-core or catalog discount)

Respondents may be requested to submit such answers in writing but will not be allowed to change or alter their offer.

By mutual written agreement, the contract may be extended for three additional 12-month periods, ending on the last day of February. AEPA may choose to recommend the contract extension. If so recommended, an individual Member Agency may choose, at their sole discretion, to extend the contract. In the event AEPA does not recommend or approve a contract extension, or a contract expires, a Member Agency reserves the right to offer an extension not to exceed six (6) months until a new contract is awarded by that Member Agency.

Termination by Non-Approval of AEPA: AEPA Member Agencies on annual basis assess, evaluate, and review existing AEPA vendors to determine if the organization as a whole desire to **extend its approval of those vendors. If an existing AEPA vendor's approval is not** extended for an additional term, the AEPA Member Agencies can not extend the **dis-approved vendor's contract.** (See Term of Contract and Extensions)

The Vendor **Partner, after receipt of a "Notice of Termination,"** must not accept any new orders after the termination date specified in the notice. Any termination must not affect projects that are in progress at the time the cancellation is received by the AEPA Member Agency. Upon receipt of the notice of default, the defaulting party must have ten business days to provide a satisfactory response to the AEPA Member Agency. Failure on the part of the defaulting party to

If the default is not cured within the time specified in the notice of default, the non-defaulting party must have the right, in addition to all other remedies at law or equity, to immediately terminate this contract. Failure to complain of any action, non-action or default under this Agreement must not constitute **a waiver of any of the parties' rights hereunder. The AEPA Member Agency reserves the right to terminate this contract, or any part hereof, for cause in the event of any default by the Vendor Partner, or if the Vendor Partner fails to comply with any contract terms and conditions, or fails to provide the AEPA Member Agency, upon request, with adequate assurances of future performance. In the event of termination for cause, the AEPA Member Agency must not be liable to the Vendor Partner for any amount for supplies or services not accepted, and the Vendor Partner must be liable to the AEPA Member Agency or any Participating Entity for any and all rights and remedies provided by law. If it is determined that the AEPA Member Agency improperly terminated this contract for default, such termination must be deemed a termination for convenience. Such termination will be affected by sending **fifteen (15) days written notice to the Vendor Partner. The Buyer's decision as to whether sufficient appropriations and authorizations are available must be accepted by the Vendor Partner and must be final.**

Title and Risk of Loss: The title and risk of loss of material or service must not pass to the Buyer purchasing the material or services until it receives the material or service at the point of delivery unless otherwise provided within this document.

Trade-in Equipment: Equipment for trade-in must be dismantled by the Vendor Partner and removed at its expense. The conditions of the trade-in equipment at the time it is turned over to the Vendor Partner must be the same as when the original agreement was made, except as affected by normal wear and tear from use between the time of the solicitation and the trade-in. Values placed on trade-in products are between the Buyer purchasing the new unit and the Vendor Partner.

Type of Solicitation: Due to the various types, kinds and levels of products and services solicited by AEPA in its solicitations; the various pricing methodologies and/or methods utilized and offered to price the various products and services offered; and the type of contracts that results from any **one of AEPA's** solicitations, AEPA has established the following types of solicitations.

1. Catalog Bid: A catalog bid is utilized when the products and /or services solicited are clearly identified with set and specific characteristics, attributes, and configurations that are identifiable as a stand-alone single unit and can be listed and priced as a single unit with options that can be added to enhance and/or improve its operation and functionality. The Bidder offers a fixed discount(s) off retail price or prices in a Commercially Available Catalog. The discounts

may be for the entire Catalog for specific products, product lines, manufacturers, or category of products as determined by the Bidder. See the Pricing section for detailed information on Catalog pricing.

2. Line Item Bid: A Line-item bid is utilized when the products and services solicited cannot be identified or listed as a single unit; consists of a number of different variable and configurations, it is necessary to identify the specific project or application; the end product or solution is made **of individually priced elements or components and the end product's or solutions' cost is derived by the Vendor Partner specially prepared and providing a quote based on the project's terms, conditions and requirements.** See the Pricing section for detailed information on Line-Item pricing.
3. AEPA also uses Request for Proposal (RFP) for certain service/goods categories in accordance with AEPA bylaws and procedures.

Vendor Partner: Respondent who has been approved and awarded a contract for the delivery of construction, tangible personal property, supplies, or services in response to this solicitation.

Vendor Partner Contact: Vendor Partner will designate one individual who will represent them to the AEPA, its AEPA Member Agencies during the contract period. This contact person will correspond with each AEPA Member Agency for technical assistance, problems, or questions that may arise. If other staff, distributors and/or independent Vendor Partners will be performing the sales or support functions for different geographical areas (states), Vendor Partner must include instructions and contact information that can be distributed to AEPA Member Agencies upon approval of this bid.

Warranty: Vendor Partner warrants that all commodities, supplies, materials, equipment, software, and service delivered under this contract must conform to the specifications of this contract. All items should carry a warranty equal to the intended life cycle or a minimum **manufacturer's** warranty that includes parts and labor unless otherwise specified in the category specifications. **The manufacturer has the primary responsibility to honor a manufacturer's warranty; a distributor or dealer agrees to assist the purchaser to reach a solution in a dispute with the manufacturer over a warranty's terms. Any extended manufacturer's warranty will be passed** on to the Buyer. For example, if a voice board has a three-year warranty, but the board is in a turnkey system that has a one-year warranty, **the voice board's three-year warranty must be honored by the manufacturer and the Vendor Partner.** All extended warranties must be passed on, without exception. If upon discovery, the Vendor Partner charges a Buyer for a replacement part that the Vendor Partner actually received at no cost under a warranty, the Vendor Partner will rebate the amount billed and the Buyer reserves the right to cancel the contract.

## 7. Pricing

AEPA has identified acceptable pricing methodologies that are to be utilized to submit pricing in most cases. Pricing strategy descriptions are found in Part A – AEPA Instructions and General Terms and Conditions. We request that the pricing response contain sufficiently detailed information to determine a realistic cost or value for AEPA member agencies. The Vendor Partner agrees that the cost or value for any item offered on this contract will be uniform for all states, and that any differences in pricing are due to state specific costs, AEPA Member Agency's Administrative Fee, or other approved reasons. **The Vendor Partner must agree that they will offer value equal to or better than what they ordinarily offer to individual entities or cooperatives with equal or lesser volume.**

AEPA is expecting pricing on the vendor's entire offering under the scope of this solicitation.

For services, vendors may respond with a value-based response, a discount off labor and material costs, or similar response based on the service described. When labor and material costs are used, labor must be sufficiently itemized by title and include total rate (salary and fringe), and material costs must be itemized. Any Vendor Partner awarded under a time and materials pricing strategy must provide a "not to exceed" project quote to the purchasing Agency for work approval.

AEPA requires that pricing/value be returned using the Part F Excel Forms provided. In the RFP for Technology Buyback services, value comparisons will be based on revenue returned based on several provided scenarios.

## 8. Part F – Pricing/Value Workbook

- a. Information shall be completed on the provided pricing sheets (Microsoft Excel Workbook) with the individual tables to be completed as follows:
  - i. F.1 – Technology Grading Guide (Required)
  - ii. F.2 – Project Quote – Small (Required)
  - iii. F.3 – Project Quote – Large (Required)
  - iv. F.4 – Volume Discounts (Optional)

## 9. Evaluation

The AEPA Committee for this category will evaluate proposals based on the entire response, and according to the criteria detailed in Part A for AEPA's definition of Responsive and Responsible proposals. A recommendation may be made to recommend a single response, or to recommend multiple offers based on differentiation of product or service. AEPA will vote as a whole to accept or not accept a committee's recommendation. Once accepted, each recommended response will go to the individual states for contract approval. Please note, pricing evaluation may include other considerations, including the total cost of the acquisition and whether the Proposer's offering represents the best value. The evaluation committee may consider such factors as life-cycle costs, total cost of ownership, quality, and the suitability of an offering in meeting AEPA members' needs.

For California, this bid is issued under the authority of the elected Monterey County Superintendent of Schools administering MCOE located at 901 Blanco Circle, Salinas California, 93912. In this document, MCOE may be referred to as Agency, being distinct from other parties who may use this Contract who are hereinafter referred to as Local Education Agencies (LEAs), regardless of their hierarchy or their political and organizational status as schools or municipalities.

##### **3. CalSave and CalBuy, Administration, and Agent**

Contracts awarded and Awarded Contractors/Vendors will automatically be part of the CalSave program, which also may be known as the CalBuy program., By bidding a Vendor must agree to participate. However, any LEA using this Contract where Section 4 fees are not permitted shall be required to pay a 2 percent fee for use of the Contract, imposed by MCOE on the authority of Public Contract Code §20118 and §20652, which allows MCOE to charge reasonable costs to the public corporation or agency for furnishing the services incidental to the purchase of items under Contract.

**9. Conformance to Public Contract Code §20111**

An award by the Monterey County Superintendent of Schools under this solicitation will be for the purchase of equipment, materials, supplies, services or repairs to be furnished, sold, or leased in accordance with Public Contract Code §20111 and §20650 or other California code sections as may be allowed by law. Awards shall include allowance for installation and assembly services incidental and necessary to the use of the equipment, materials, supplies and repairs purchased or leased.

**10. Conformance to Public Contract Code §20118 and §20652**

All public agencies (LEAs) are authorized by law to purchase off a contract awarded by an agency that has itself gone to bid, including all K-12 schools districts, community college districts, special districts and JPAs serving education, pursuant to Public Contract Code §20118 and §20652. Using these statutes, the MCOE hereby declares its intent and authorization to make all contracts awarded under this Contract "piggybackable" by other agencies in the state. The Agency waives any right to receive payment from other California agencies making purchases off the awarded contracts and those agencies will make payment directly to the vendors. Any legislative changes to Public Contract Codes §20118 and §20652 during the term of the Contract(s) with Award Vendor(s) shall apply to the Contract(s) immediately when such changes become law.

**11. Piggyback and Standard School Supply & Equipment Authority**

MCOE declares that items, materials, personal property, equipment and licenses under Contract as a result of this Invitation to Bid will qualify as items to be included within its Standard School Supply and Equipment List. Because many County Offices of Education have banded together to create both the EdBuy and the CalSave programs for the purpose of collectively creating both a standard School Supply & Equipment List and cooperative contracts, the items solicited and awarded through this bid may also constitute a portion of an official Standard School Supply and Equipment List for other participating County Offices of Education and County Superintendents of Schools. Purchases by other County Offices of Education and LEAs may be made, not only in accordance with Public Contract Code §20118 and §20652, but also in accordance with Education Code §38110 and §38112 dealing with cooperatives and Standard School Supplies & Equipment.

**12. Intended for Personal Property**

An award by the MCOE under this solicitation will be for the purchase of equipment, materials, supplies, services or repairs to be furnished, sold, or leased in accordance with Public Contract Code §20111 and §20650. Awards shall include allowance for installation and assembly services incidental and necessary for use of the equipment, materials, supplies and repairs purchased or leased. When any services or repairs fall into a category of Public Works as defined in Public Contract Code §22002, an LEA may be required to conduct a separate bid for labor and services but may use this Contract for an unlimited dollar amount for any supplies, materials, equipment or personal property to be staged and ready for use in a local Public Works project.

### **13. Public Works Limitations**

When Public Works services cost \$15,000 or more, an LEA, under most situations, must bid itself independently for the services and labor related to the public work, but may use this Contract for the contracted supplies, material or equipment related to the project. If circumstances allow, LEAs may also combine this competitively bid Contract with other alternative authorities for Public Works projects as may be allowed by law, such as Public Contract Code §22030, Education Code §17406 or Government Code §1466. LEAs may consult with their own legal counsel to see if such statutes apply to their Public Works projects.

### **14. Job Order and Unit Price Contracting**

Notwithstanding, Sections 9 through 13, the Awarded Contractors/Vendors and any authorized resellers or subcontractors, may extend bid pricing to other agencies in California, including school districts, community colleges, state colleges, cities, and counties to the extent allowed by law under Job Order Contracting statutes, including but not limited to Public Contracts Codes §20919.20 through §20919.33, §20665.20 through §20665.35 and §10710. Agency allows any school district, college, or agency to use this Contract and its competitively bid unit pricing as an alternative to other contracting procedures that the school district or agency is otherwise authorized or required by law to use. In using this Contract and pursuing a job-order-contracting project, a participating agency is obliged to conform to contracting steps spelled out in their respective code sections, state college trustee policies, or local board policies including but not limited to Public Contracts Codes §20919.20 through §20919.33, §20665.20 through §20665.35 and §10710.

Agency allows any school district, college, or agency to use this Contract and its competitively bid unit pricing as an alternative to other contracting procedures that the school district or agency is otherwise authorized or required by law to use. In using this Contract and pursuing a job-order-contracting project, a participating agency is obliged to conform to contracting steps spelled out in their respective code sections, state college trustee policies, or local board policies.

### **15. Start Date**

Once the award is made to the Contractor/Vendor and signatures have been placed on the Contract from both parties, the awarded Contractor/Vendor is authorized to begin selling to eligible agencies. MCOE will begin informing LEAs of the Contract once the Contract has been signed.

### **16. Posted Prices and Requests for Quotes**

The awarded contractor/Vendor, in cooperation with MCOE's agent, must make provision for LEAs to quickly ascertain bid prices by posting prices, posting a link or contact for prices, distributing catalogs and price lists, responding to requests for quotations, or participating in eCommerce. (The 2 percent Transaction Fee on all sales is a cost of doing business to the Vendor and the requirement for the fee is publicly disclosed in these bid documents for the edification of all buying agencies and LEAs. Transaction fees should not appear as a line item on a quotation or on listed bid pricing. The final price quoted or displayed must be inclusive of the participation fee on all pricing and quotations.)

### **17. Submission of Orders and Delivery**

After entering into an agreement with MCOE, an LEA electing to use this Contract will enter into a Separate Contract with the Vendor by way of a purchase order or separate contracting document ("Separate Contract"). Purchase orders will be issued by participating LEAs to contractor/Vendor.

LEAs will fax or mail purchase orders directly to the CalSave office fax at (866) 488-3729), unless other arrangements have been made and agreed to by the CalSave Administrator. LEAs may also use Epylon eCommerce software for transmission of purchase orders. Standard business practice is for all purchase orders received by 3:00 p.m. Pacific Time to be logged and forwarded to the appropriate Vendor on the same day received unless unusual circumstances occur. It is the responsibility of the awarded/Vendor contractor to track any purchase order received directly from an LEA and to include that order on quarterly reports.

Awarded Contractor/Vendor will deliver goods, services and corresponding invoices directly to the participating LEAs and receive payments directly from the participating LEAs as per bid specifications.

### **18. Other Agencies Right to Purchase**

CalSave is a self-supporting contracting program led by MCOE. Contracts are made available to all California public school districts, private and nonpublic schools registered with a county office of education or state Department of Education, charter schools, community college districts, eligible state agencies, non-profits (particularly those such as PTAs buying on behalf of schools or government), and any other agency allowed by law – all referred to as LEAs.

Subject to the following Terms and Conditions, MCOE consents to LEAs purchasing items at the same unit price(s) or pricing formula under the Terms and Conditions of this Contract, as may be authorized by §20118 and §20652 of the Public Contract Code or other legal authority:

- a) Any other agency (LEA) authorized by law to use this Contract for its own purchase(s) from the awarded Contractor/Vendor or their authorized resellers shall by default enter into a standard agreement with MCOE, which *inter alia* will include the terms, conditions, and information set forth in this paragraph A and paragraphs B through I below.
- b) After entering into a standard agreement with MCOE, an Other Agency electing to use this Contract will enter into a Separate

Contract or purchase order (“Separate Contract”) with the contractor/Vendor. The Separate Contract is subject to and includes and/or incorporates all applicable terms of this Contract and the specific requirement that the awarded Contractor/Vendor comply with the provisions set forth in the paragraph regarding payment of the 2 percent Transaction Fee (or the non-conforming jurisdiction fee) to be collected by the Epylon Corporation. MCOE will not be a party to any Separate Contract but will be considered a third-party beneficiary of such Separate Contract.

c) The Awarded Contractor/Vendor understands and agrees that failure or refusal to comply with the provisions set forth in this agreement regarding payment of the 2 percent Transaction Fee in conjunction with any Separate Contract or any other use of this Contract by an “Other Agency” is grounds for cancellation of the Contract. The Contractor/Vendor also understands and agrees that if the Contract is cancelled for this or any other reason, MCOE may give notice of such cancellation by any other means appropriate to inform LEAs of that cancellation.

d) The MCOE waives any right it may have to require any LEA using this Contract to draw its warrants for the purchase(s) in its favor and consents to each agency making such payment(s) directly to the contractor/Vendor.

e) Sales tax and freight/shipping charges included in the Contract apply to the MCOE only. Additional sales tax and freight/shipping charges may be required on purchases by any LEA and are outside the scope of this Contract, unless specifically addressed elsewhere in Part A or Part B of the Terms and Conditions.

f) This Contract and any Separate Contract are for the purchase of the items covered by Contract. An LEA may, however, exercise its authority under Education Code §17597 or 81645 or other legal authority to sell and lease back any item owned by, or to be owned by, it pursuant to any Separate Contract. The Contractor/Vendor agrees to take any and all actions requested by any LEA that are necessary to effect any such transfer, by way of example only, accepting payment under the Separate Contract from any third party to whom any such transfer is made.

g) Both the Contractor/Vendor and any LEA using this Contract agree that the MCOE makes no representation that use of this Contract by any Other Agency is, in fact, authorized by law. In this regard, the MCOE suggests that, at a minimum, Contractor/Vendor and any LEA considering such use consult with their own legal counsels before doing so.

h) Both the Contractor/Vendor and any LEA using this Contract agree to defend, indemnify and hold MCOE, the Monterey County Superintendent of Schools, and the Monterey County Board of Education and its members, as well as all of their respective officers, employees and agents, free and harmless from any claims, liabilities, costs, penalties, or interest arising out of any such use.

i) MCOE reserves the right to cancel the whole or any part of this Contract due to failure by the contractor to carry out any obligation, term or condition of the Contract. MCOE will issue written notice to the contractor for acting or failing to act in any of the following:

a) The Vendor fails to adequately perform the services set forth in the Contract

b) The Vendor fails to make progress in the performance of the Contract and/or gives MCOE reason to believe that the contractor will not or cannot perform to the requirements of the Contract

c) The contractor fails to observe any of the Terms and Conditions of the Contract

d) The contractor fails to pay Transaction Fees

e) The contractor fails to follow the established procedure for purchase orders, invoices and receipt of funds as stipulated by the MCOE. MCOE shall follow the following procedure if the Contract is to be terminated:

- Step 1 - Issue a warning letter of concern outlining the violations and length of time to correct the problem(s).
- Step 2 - Issue a letter of intent to cancel the Contract, if the problem(s) is not resolved by a given date.
- Step 3 - Issue letter to cancel the Contract. Upon receipt of the written notice of concern, the contractor shall have ten (10) business days to provide a satisfactory response to MCOE. Failure on the part of the contractor to address adequately all issues of concern may result in Contract cancellation.

## **19. Conversion to a CMAS Contract**

Because of its multiple-award provisions, this Contract may qualify for adoption as a California Multiple-Award Schedule contract. If the Vendor uses this MCOE Contract for the purpose of obtaining a separate CMAS contract from the State of California, the Vendor is responsible for paying both the CMAS fee and the two percent Transaction Fees described in Section I.4 for all orders submitted under the authority of the CMAS program. In exchange for this fee, the Vendor is given a license to use and duplicate MCOE/AEPA Terms and Conditions for the purpose of applying for a CMAS contract. Also, CalSave or CalBuy will post pricing allowing prospective buyers to check for pricing that is compliant with the MCOE Contract and CMAS requirements. Vendor must comply with MCOE’s quarterly reporting requirements. Public records of sales through CMAS will be used to verify quarterly reports and sales made through the CMAS program.

## **20. Other Agencies, Constitutionally Independent Agencies, & Out-of-State Agencies**

Other agencies and out-of-state agencies and LEAs may use the Contract as allowed by California Government Code §6502, which says, “If authorized by their legislative or other governing bodies, two or more public agencies by agreement may jointly exercise any power common to the contracting parties, even though one or more of the contracting agencies may be located outside this state. It shall not be necessary that any power common to the contracting parties be exercisable by each such contracting party with respect to the geographical area in which such power is to be jointly exercised. For purposes of this section, two or more public agencies having the power to conduct agricultural, livestock, industrial, cultural, or other fairs or exhibitions shall be deemed to have common power with respect to any such fair or exhibition conducted by any one or more of such public agencies or by an entity created pursuant to a joint powers agreement entered into by such public agencies.”

## **2. Colorado, Colorado BOCES Association (CBA)**

### **A. Additional Agency Terms and Conditions**

**Advertising:** CBA will require a marketing flier, in electronic format, and timely updates from each vendor promoting the contract and AEPA/CBA relationship. CBA will assist in the development of the marketing flier and other appropriate materials which will include logos representing the vendor/AEPA/CBA. This flier will be for distribution and dissemination to all qualified customers through the CBA website and other appropriate and available methods.

**Sales to Qualified Customers:** Boards of Cooperative Educational Services (BOCES) in Colorado are legislatively created cooperative organizations directed by Colorado state statute 22-105 to serve all qualified agencies in a cooperative manner. BOCES are governed by publicly elected officials and by state and federal laws. No agency is obligated to use these services and contracts, but they find the benefits of low price and the satisfied bidding process most advantageous. Qualified agencies in Colorado include all public or private educational institutions, K-12 and higher education, all non-profit organizations, and all county or local governmental agencies. CBA requires that all participating vendors offer the Agency contract opportunities to all qualified customers.

### **B. Procedure for Processing Orders:** Once the award is made to the vendor.

- CBA will inform its members of the contract by:
  - i.* Including the contract in the agency database that is available on the CBA website
  - ii.* Announcing the award through normal communication channels, CBA member presentations as well as regular electronic and direct mail communications.
  - iii.* Offering the opportunity to the vendor to publish their marketing information on the CBA website link to cooperative purchasing opportunities.
- A listing of CBA members, institutional names, contact names, addresses and phone numbers is available to the vendors through the CBA website. At this point the vendor must contact the members and qualified customers; and the customers have the right to contact the vendors directly. Note: CBA requires the awarded vendors to take ownership and actively promote the contract in cooperation with CBA to all members and qualified customers.
- When the customer identifies a desired product or service as available through the AEPA/CBA contract and agrees on price as presented to the customer by the awarded AEPA/CBA vendor, the customer then issues to the vendor a purchase order for that item or service.
- The awarded price must include an additional two percent (2%) administrative fee in the total cost (not as a separate line item), based on the total cost of goods and services including installation. This fee is to be forwarded by the vendor to CBA after the sale and payment is made to the vendor. Payment shall be made to CBA on a quarterly basis along with the complete sale report as specified in the general terms and conditions.
- The sale and transaction may continue without delay or anticipation of the CBA denial of said transaction.
- The administrative fee percentage (2%) is based on the total sale of goods and services including installation and must be included in the original cost quoted to the customer. In the event of a lease, the total administrative fee for the value of goods and services shall be paid to CBA by the vendor at the front end of the lease.
- Vendor makes all deliveries and installation of products and services. CBA does not warehouse items nor provide services.

### **3. Connecticut, Capitol Region Education Council (CREC)**

#### **A. ADDITIONAL MEMBER AGENCY GENERAL TERMS AND CONDITIONS**

**Affirmative Action** - The Contractor must have an employment policy that there shall be no discrimination against anyone on the grounds of race, color, religious creed, age, marital status, national origin, ancestry, sex, intellectual or physical disability or sexual orientation in the hiring, upgrading, demotions, recruitment, termination and selections for training, in any manner prohibited by the laws of the United States or of the State of Connecticut. The Contractor further agrees to be an "affirmative action-equal opportunity employer."

#### **An Act Concerning Student Data Privacy**

Contractor shall comply in all material respects with the provisions of Public Act 16-189, as amended (the "Act"), applicable to it. In connection therewith, the Contractor shall not use any so-called "student information" as defined in the Act and provided to it by or on behalf of CREC ("Student Information") for any purpose other than in connection with the performance of its obligations under this Agreement. The Contractor shall take commercially reasonable actions designed to ensure the security and confidentiality of all Student Information in its possession. The Contractor shall provide written notice to CREC within fourteen (14) days of Contractor's becoming aware of any unauthorized release, disclosure, or acquisition of Student Information in the possession of the Contractor. The Contractor and CREC shall each comply in all material respects with the requirements of the federal Family Educational Rights and Privacy Act of 1974, as amended ("FERPA").

**Applicability of Contract Provisions to Connecticut Participants** - The Capitol Region Education Council (CREC) is the AEPA Member Agency. Any entity that uses the contract awarded by CREC under this document is referred to as a "Participant." The bidder that is awarded the contract by CREC is referred to as the "Contractor."

#### **Conflict of Interest**

The Contractor shall disclose any relationship with a CREC employee that would not be considered an "arms-length" or independent transaction, as described below. This disclosure must be made in writing to CREC for an evaluation. CREC will respond to this disclosure in writing.

A CREC employee (including independent contractors for purposes of this definition) placing an order or recommending a vendor must disclose any relationship with that vendor which would not be considered an "arms-length" or independent transaction. This disclosure must be made in writing to CREC for an evaluation. CREC will respond to this disclosure in writing.

For a transaction to be considered "arms-length" or "independent", a CREC employee should not be influenced, dependent upon, guided or controlled by a vendor into choosing that vendor, or item to purchase; nor should it appear to a third party that a CREC employee made a purchasing decision which appears to be based upon a personal relationship between the CREC employee and vendor.

The following are examples when a transaction is NOT considered arms-length or independent: (1) when there exists a personal relationship between a CREC employee and a vendor, (2) when there exists the potential for a personal benefit to a CREC employee, or (3) the parties to a business deal are dependent upon one another for "something" other than the purchase itself.

In addition, the Contractor shall, if given a copy of the potential Participant's conflict of interest policy, follow the process in that policy, or otherwise disclose to a potential Participant any relationship that would not be considered an "arms-length" or independent transaction with that Participant, as described above. This disclosure must be made in writing to the chief official (for example, the Superintendent at a board of education) at the potential Participant.

Determination of the existence of a conflict of interest does not prohibit CREC and/or a Participant from entering into the contract and purchase order, respectively.

Contracts with GRREC shall include the provision granting GRREC employees the right to access to the Contractor's records. Vendor Contact: Vendor will designate to GRREC one individual who will represent them to Kentucky Bidding Cooperative members during the agreement period. This contact person will correspond with each ordering member for technical assistance, problems, or questions that may arise. Include instructions if different contacts for different geographical areas are needed; this information will be distributed to Kentucky Bidding Cooperative members upon award of this bid. The following Federal Clauses are required as a part of KY bid documents: 1. CLEANAIR/CLEANWATER A. Vendor Partner agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251 et seq). Vendor Partner agrees to report each violation to the USDA and the appropriate EPA Regional Office.

B. Vendor Partner agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. §§ 7401 et seq. Vendor Partner agrees to report each violation to the USDA and the appropriate EPA Regional Office. 2. While rare, two (2) exceptions may exist when: the product is not produced or Manufactured in the US in sufficient, reasonable and available quantities of a satisfactory quality, such as bananas and pineapple; and competitive proposals reveal the cost of a domestic product is significantly higher than a non-domestic product. ALL products that are normally purchased by Vendor Partner as non-domestic and proposed as part of this contract must be identified with the country of origin. A list of members, contact names, addresses and phone numbers is made available to the Contractor. At this point the Contractor/vendor contacts the members and members may contact the Contractor/vendor. When the member identifies a product or service, it will issue a purchase order for that item to the vendor. The vendor's price will include a two percent (2%) administrative fee that the vendor will collect from the member and remit to GRREC on a quarterly basis. Municipal and county governments, and other governmental, quasigovernmental, or nonprofit organization price will reflect a two percent (2%) administrative fee. The vendor will also compile and provide to GRREC a quarterly report showing all purchases made by Kentucky members (with specific detail as to what purchases were made by which members) under this contract. Further, if no purchases are made in any given quarter, the Vendor shall remit a "No Activities" statement to GRREC for that quarter. A "family member" means a person's spouse or spouse's sibling or child; a person's sibling or sibling's spouse or child; a person's child or child's spouse; or a person's parent or parent's spouse, and includes these relationships as created by adoption or marriage. #### 2. Iran Economic Sanctions Act

Public Act 517 of 2012, commonly known as the "Iran Economic Sanctions Act" (the "Act"). The Act provides that beginning April 1, 2013, an "Iran Linked Business" is not eligible to submit a bid on a request for proposal with a "public entity" (OS). The Act also requires that a person that submits a proposal in response to an OS request for proposal must certify to the public entity that it is not an Iran Linked Business. This requirement applies to all requests for proposals issued by OS, and not just to construction projects.

The Act defines an Iran Linked Business as:

- b. A financial institution that extends credit to another person, if that person will use the credit to engage in investment activities in the energy sector of Iran.

If the OS determines, using credible information available to the public, that a person or entity has submitted a false certification, OS must provide written notice to the person or entity of its determination and of its intent not to enter into or renew the contract. The notice must include information on how to contest the determination. The notice must also specify that the individual or entity may become eligible for future contracts with the public entity if the activities that caused it to be an Iran Linked Business are ceased.

Any appropriate products not labeled will be refused and the Contractor will be responsible for additional freight charges. Payment may be withheld until the Participating Entity receives the MSDS.

### 2. Additional Participating Agency Terms and Conditions for Non-Construction Products and Services

If requested by CPC, the contracted vendor will work with CPC to develop an order form, or order forms, containing the most purchased items, that CPC can utilize to market the contracted vendor to its participating agencies.

### 3. Additional Participating Agency Terms and Conditions for Construction Related Products and Services

Upon acceptance and approval of the Vendor's offer by AEPA, CPC will independently consider the offer and consult with the Vendor to determine if the Vendor can meet the requirements for construction-related products and services and to enter and execute a contract in the state of Minnesota. The contracted vendor will be required to work with CPC's participating agencies and require that an architect's signature or certification is noted on the specifications as required by [Minnesota Statute §326.12 subd. 3](#). With certain exceptions, [Minnesota Rules part 1800.5200, subpart 1](#), requires a licensed architect or

engineer to prepare and certify specifications for building alterations or renovations. Once CPC and the Vendor can confirm that business can be conducted in Minnesota, CPC will make a final decision to complete the contract execution process.

For all quotes provided to participating agencies, for construction-related projects, products, and services, the contracted vendor must also send a duplicate quote to CPC. The quote provided to CPC must include the contact information of the participating agency.

**Performance Bond (for construction and/or installation related projects):** Performance bonds will be required on all projects valued at fifty-thousand dollars (\$50,000) or more in Minnesota and twenty-five thousand dollars (\$25,000) or more in South Dakota. All performance bonds will be issued by a corporate surety authorized to do business in the state in which the work will be conducted and by a surety listed in the US Treasury Circular 570. Performance bonds will be posted by the Vendor and submitted to the specific participating agency for the assigned project. Should the contract be the result of a piggyback agreement, performance bonds will reflect each state's bonding requirements.

The Vendor will execute a performance bond in an amount equal to one hundred percent (100%) of the value specified in the contract between the participating agency and the Vendor unless the participating agency requires less to be posted. This bond will protect all persons supplying labor and material to the Vendor for the performance of the work provided in the contract. Subcontractors who may work on the contract may have to provide the Vendor with a performance bond. If the contract price increases after the bond is provided, the participating agency may consider obtaining additional bonds from the Vendor.

The Vendor will deliver the performance bond to the eligible participating agency at the time the contract is executed between the agency and the Vendor. Work will not commence between the Vendor and the eligible participating agency until the performance bond is received by the participating agency and a copy has been sent to CPC via email ([info@purchasingconnection.org](mailto:info@purchasingconnection.org)). The Vendor will be responsible for providing CPC with a copy of all contracts and bonds following CPC purchasing procedures. Should the Vendor fail to satisfactorily perform the contract, the bonding company that provided the performance bond will be required to pay the dollar amount of the bond to the participating agency.

It is the Vendor's responsibility to ensure that they can obtain the required bonding for all construction products based on an awarded contract arising from this solicitation. Payment will not be issued for any project for which the required bonds have not been received.

With said construction-based project, the participating agency may enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in this solicitation and resulting Master Contract Agreement (i.e., project timeline, completion dates, progress payments, delivery requirements, invoice requirements, etc.). Any supplemental agreement developed as a result of the Master Agreement is exclusively between the Vendor and the participating agency. CPC, its agents, members, and employees shall not be a party to any claim for breach of such agreement.

#### 4. **Insurance:**

The Vendor shall purchase, maintain, and provide certification from the insurer for minimal coverage during the life of an awarded contract, to include, but not limited to, comprehensive public and/or commercial liability, errors and omissions, workman's compensation, unemployment, and other insurance coverage required by and applicable to each of CPC's individual state's statutes and federal laws which proposed products and services will be offered and provided. The Vendor shall provide a Certificate of Insurance (COI) from the issuing company or their authorized agent, identifying the coverage required below and identifying CPC as a "Certificate Holder". Any required insurance that is canceled before the expiration date of the contract agreement, the issuing company will send immediate notice to CPC. Respondents shall provide a statement of insurance from the issuing company or their authorized agent with their proposal. The Vendor shall meet the following requirements:

- a. Commercial General Liability: \$1,000,000 each occurrence, \$500,000 annual aggregate

#### 5. **Procedure for Contract Award, Notification and Processing Orders**

- c. Upon award and completion of the vendor orientation, CPC will promote the contract opportunity to its membership in one or more of the following ways: websites; agency newsletters; hard copy marketing flier; Email

- announcements; contract catalog; and trade shows.
- d. CPC will require a marketing flyer, brochure, or other similar marketing pieces, in an editable, electronic format from each vendor promoting the available contract with the vendor, and/or a web page or link. CPC may assist in the development of the marketing flier and material (if requested by the vendor), but in all cases shall have the authority to review and approve any marketing materials. If a web site is used, the link will be made available from the CPC web page. Any web page or link, or other marketing tools shall be dedicated to CPC and/or AEPA information only.
  - e. When a participating agency identifies a desired product or service, the agency and the Vendor may negotiate with each other to establish a description of items and/or services. The Vendor shall quote a price to the member, using AEPA established discounts including the two percent (2%) administrative fee in the quoted price not as a separate line item. The administrative fee shall be based upon the total cost of goods and/or services including installation costs.
  - f. Ordering Methods.
    - i. Participating agencies may use two (2) different methods of placing orders from the resulting contract Purchase Orders (PO's) and procurement cards. The method of payment is at the discretion of the participating agency. Additional surcharges for the use of a procurement card must be clearly outlined.
    - ii. A PO may be issued to the Vendor on behalf of the participating agency ordering the services covered under the resulting contract. An issued PO will become part of the resulting contract. The PO indicated that sufficient funds have been obligated toward the purchase.

Payments must be received either via check or authorized ACH. An ACH enrollment/authorization form must be provided to CPC for completion. ## 7. Express Online Marketplace

CPC provides participating agencies with an online purchasing platform called Express. Through Express, agencies can search for and purchase items. Essentially, Express is a one-stop-shop for many of CPC's commodity-based contracts. The Vendor does not have to have an e-commerce site to be included in Express. Express offers integration into two (2) of the main K-12 school financial systems in Minnesota. CPC expects growth in the number of agencies utilizing the marketplace and the volume of sales to grow significantly. CPC will work with the Vendor to determine if the contract agreement is suitable for the online platform. If deemed suitable, CPC will require integration into Express promptly as outlined in the solicitation.

Bidder agrees that leases will be in compliance with the Uniform Commercial Code. All terms of leasing must be included in the proposal, with interest rates described as related to a government standard. Bidder must indicate in its response to this solicitation if the shipping costs for the return of leased or rented equipment are the responsibility of the EDPLUS customer, and what that cost will be. No sale of a contract to a third party will be made without first informing EDPLUS and the EDPLUS customer of the sale. If Bidder sells a lease contract to a third party, the cost of return must not be greater than the cost of return to the original vendor. A 2% administrative fee must be included in the lease cost based on the total value of the goods purchased. This fee is referred to under ordering process.

**B. Procedure for Processing Orders**

(1.) Once the award is made to the vendor, EDPLUS will inform its members and other potential customers of the contract by announcing the award on its by including the award in presentation comments and in other communications.

(2.) EDPLUS may require marketing materials from each vendor promoting the contract and AEPA relationship. EDPLUS will assist in the development of the marketing flier and material, if requested. This flier will be for distribution as well as posting on the EDPLUS website and disseminated to potential customers. Note: EDPLUS requires the awarded vendor to take ownership and actively promote the contract in cooperation with EDPLUS to all qualified customers.

(3.) When the customer identifies a desired product or service as available through the AEPA contract and makes a purchase on the EDPLUS online Marketplace or agrees on price as presented to the customer by the awarded AEPA vendor, the member then issues to the vendor a purchase order for that item or service.

The purchase order must include an additional two percent (2%) administrative fee in the total cost, based on the total cost of goods and service including installation and freight if applicable. #### 14. Montana, Montana Cooperative Services (MCS)

1. General Standards: Purchases by public entities in excess of \$80,000 are subject to public bid; purchases under this amount are subject to requirements of public contracts. See Sections 7-5-230 I and 7-5-2304, Montana Code Annotated (Counties); Sections 7-5-4302 and 7-5-4303, Montana Code Annotated (Municipalities).

Note: purchases of less than \$80,000 are not subject to public bid requirements, which provides local government entities with considerable flexibility to make purchases. Public bidding requirements do not appear to prohibit local government entities who are members of AEPA or MCS from soliciting bids from approved vendors for purchases in excess of \$80,000.

2. Local Government Cooperative Purchasing Authority: Local governments may also elect to purchase cooperatively through the Montana Department of Administration in lieu of soliciting their own bids. 51 A.G. Op. 15 (2006). Procurement by government entities generally falls within the Montana Procurement Act, Section 18-4-10 I, MCA, et seq.

A. Local Governments are authorized to adopt and implement the rules and standards of the Act: 18-4-124. Local government adoption of procurement provisions -- alternative project delivery contracts. (1) A political subdivision or school district may adopt any or all parts of this chapter and the accompanying rules promulgated by the department.

B. Local governmental entities and school districts are specifically authorized to purchase cooperatively in the public interest:

18-4-401. Definitions. As used in this part, the following definitions apply:

(1) "Cooperative purchasing" means procurement conducted by or on behalf of more than one public procurement unit.

(2) "Local public procurement unit" means a county, city, town, or other subdivision of the state or a public agency of any such subdivision; public authority; educational, health, or other institution; to the extent provided by law, any other entity that expends public funds for the procurement of supplies and services; and any nonprofit corporation operating a charitable hospital.

(3) "Public procurement unit" means a local or state public procurement unit of this or any other state, including an agency of the United States, or a tribal procurement unit.

(4) "State public procurement unit" means a state department, agency, or official that expends public funds for the procurement of supplies and services.

(5) "Tribal procurement unit" means a tribal government, tribal entity, or official of a tribal government located in Montana that expends tribal funds or funds administered by a tribe for the procurement of supplies and services to the extent provided by tribal or federal law.

18-4-402. Cooperative purchasing authorized. The department may participate in, sponsor, conduct, or administer a cooperative purchasing agreement for the procurement of any supplies or services with one or more public procurement units in accordance with an agreement entered into between the participants independent of the requirements of part 3. Cooperative purchasing may include purchasing through federal supply schedules of the United States general services administration, joint or multiparty contracts between public procurement units, open-ended state public procurement unit contracts that are made available to local public procurement units, and competitive contracts established by for-profit, not-for-profit, or nonprofit cooperative entities. (emphasis added).

Note: Cooperative purchasing by local governmental entities may require entering into an agreement with the Montana Department of Administration. This requirement does not appear to preclude local entities from participating as members of purchasing groups.

C. Local governmental entities are authorized to enter agreements with each other in order to purchase cooperatively. 7-11-104. Authorization to create interlocal agreements -- issuance of bonds for joint construction -- hiring of

teacher, specialist, or superintendent. One or more public agencies may contract with any one or more other public agencies to perform any administrative service, activity, or undertaking or to participate in the provision or maintenance of any public infrastructure facility, project, or service, including the issuance of bonds for the joint construction of a facility under 20-9-404, the hiring of a teacher or specialist under 20-4-201 or a superintendent under 20-4-401, or the hiring of or contracting with any other professional person licensed under Title 37, that any of the public agencies entering into the contract is authorized by law to perform. The contract must be authorized and approved by the governing body of each party to the contract. The contract must outline fully the purposes, powers, rights, obligations, and responsibilities of the contracting parties. (emphasis added).

3. School and school district cooperative purchasing authority: Schools and school districts are specifically authorized to purchase cooperatively utilizing qualifying purchasing entities:

"A [school] district may enter into a cooperative purchasing contract for the procurement of supplies or services with one or more districts. A district participating in a cooperative purchasing group may purchase supplies and services through the group without complying with the provisions of [soliciting public bids and awarding a contract] if the cooperative purchasing group has a publicly available master list of items available with pricing included and provides an opportunity at least twice yearly for any vendor, including a Montana vendor, to compete, based on a lowest responsible bidder standard, for inclusion of the vendor's supplies and services on the cooperative purchasing group's master list." Section 20-9-204(4), Montana Code Annotated (emphasis added).

Note: Montana's AEPA member, Montana Cooperative Services, meets all of the statutory requirements of Section 20-9-204(4), MCA, with respect to cooperative purchasing groups.

Cooperative purchasing is another tool in the bag for local governmental entities, including school districts, to acquire services and supplies at better prices than may otherwise be available. Membership in MCS provides access to AEPA-approved vendors as well as in-state suppliers who have been carefully vetted for reliability and quality.

**CONFLICT OF INTEREST**

An ESCNJ employee (including independent contractors for purposes of this definition) placing an order or recommending a vendor must disclose any relationship with that vendor which would not be considered an “arms-length” or independent transaction. This disclosure must be made in writing to the Business Administrator and/or Chief Financial Officer for an evaluation. The Business Administrator and/or the Chief Financial Officer will respond to this disclosure in writing.

For a transaction to be considered “arms-length” or “independent”, an ESCNJ employee should not be influenced, dependent upon, guided or controlled by a vendor into choosing that vendor, or item to purchase; nor should it appear to a third party that an ESCNJ employee made a purchasing decision which appears to be based upon a personal relationship between the ESCNJ employee and vendor.

The following are examples when a transaction is NOT considered arms-length or independent: (1) when there exists a personal relationship between an ESCNJ employee and a vendor, (2) when there exists the potential for a personal benefit to an ESCNJ employee, or (3) the parties to a business deal are dependent upon one another for “something” other than the purchase itself.

The Contractor shall disclose any relationship with an ESCNJ employee that would not be considered an “arms-length” or independent transaction, as described above. This disclosure must be made in writing to the Business Administrator and/or the Chief Financial Officer for an evaluation. The Business Administrator and/or the Chief Financial Officer will respond to this disclosure in writing.

In addition, the Contractor shall, if given a copy of the potential New Jersey Participant’s conflict of interest policy, follow the process in that policy, or otherwise disclose to a potential New Jersey Participant any relationship that would not be considered an “arms-length” or independent transaction with that New Jersey Participant, as described above. This disclosure must be made in writing to the chief official (for example, the Superintendent at a board of education) at the potential New Jersey Participant.

Determination of the existence of a conflict of interest does not prohibit ESCNJ and/or a New Jersey Participant from entering into the contract and purchase order, respectively.

**Money:** All transactions are payable in U.S. currency only.

**Ordering Process:** CES currently offers (4) four procurement/purchasing options: the "Traditional Method", the "Online Ordering Method" through Contractor's website and the "Direct Purchase Method" through the CES Blue Book and Leasing.

1. **Traditional method,** CES Members/ Participating Entities will submit signed purchase orders to CES at [PO@CES.ORG](mailto:PO@CES.ORG). CES will then issue a purchase order to the Offeror. The Offeror must agree to never accept a purchase order directly from the CES Member/Participating Entity based on this procurement method. The purchase order you receive must be issued by CES.
2. **Online ordering through Offeror's website,** which allows the CES Members/Participating Entities to go online and create an order through the Offeror's system; the Offeror delivers the product/services; invoices the CES Member/Participating Entity; the CES Member/Participating Entity pays the Offeror; and the Offeror rebates the CES administrative fee to CES, unless an agreement to deviate from this process has been approved in writing by both parties.
3. **Direct Purchase:** For CES Direct Purchase the CES Member/Participating Entity makes their purchase order (PO) out to the Offeror and sends it to CES for contract compliance. CES will stamp the PO "Approved" and will forward the PO to the Offeror and Member. This will serve as the "authorization" for the Offeror to proceed with the purchase. Offeror will invoice the CES Member/Participating Entity directly and collect payment. CES will invoice Offeror the CES 1.25% administrative fee.
4. **Leasing:** The Offeror will rebate the CES administrative fee based on the full amount, of the lease upon payment to the Offeror by the leasing company. CES must be provided a copy of the lease agreement for compliance.

**Patent and Copyright Infringement:** Offeror will, at their expense, defend CES and its Members and Participating Entities against any claim that any equipment or software supplied hereunder infringe a patent or copyright in the United States, or a U.S. Territory, and will pay all costs, damages and attorney's fees that a court finally awards as a result of such a claim. To qualify for such a defense and payment, CES will:

1. Give Offeror prompt written notice of any such claim after becoming aware of such claim.
2. Allow Offeror to control and fully cooperate with Offeror in the defense and all related settlement negotiations.

CES will be reimbursed for all expenses incurred by CES in fully cooperating with Offeror as specifically requested by contract. CES is not required to incur any expenses specified in this paragraph, which are not reimbursable, by the Offeror. If any CES Member and Participating Entity is involved by any party in a Patent and Copyright Infringement dispute, the same provisions that apply to CES in this paragraph will apply to the CES Member or Participating Entity. Offeror's obligation under this section is conditioned on CES' agreement that if the subject of such a claim, CES will permit the Offeror, at its expense and option, either to procure the right for CES and its Members or Participating Entity to continue using the equipment and/or software, or to replace equipment or software which are functionally equivalent so that they become non-infringing. If neither of the foregoing alternatives is available on terms which are reasonable in Offeror's judgment and satisfactory to CES, CES will request its Members or Participating Entity to return the equipment or software upon written request by Offeror at Offeror's expense.

Offeror agrees to refund CES and/or its CES Member/Participating Entity for returned equipment as depreciated to current market value unless otherwise mutually agreeable in writing. The depreciation will be an equal amount per year over the life of the equipment in accordance to GAAP/GASB guidelines. In the event that an Offeror's written request for return of equipment is made after full depreciation, the Offeror will pay CES, or its CES Member/Participating Entity who purchased the equipment, an amount equivalent to the fair market value of the returned equipment. If CES, or any of its CES Member/Participating Entity, fails to return the equipment, the Offeror is not obligated to that Member under this clause.

Offeror will have no obligation with respect to any such claim based upon a Member's or Participating Entity's modification of the equipment or software or combination, operation or use with apparatus, data or programs not furnished by Offeror. However, one Member's or Participating Entity's action will not preclude Offeror's obligation to other Members/Participating Entities not having modified their equipment or software.

the Offeror for goods and services that have been received and accepted. Payment from the Member or Participating Entity to the Offeror will be made within forty-five (45) days after the receipt of a correct invoice, unless a good faith dispute exists as to any obligation to pay all or a portion of the account. ## 21. Oregon, Intermountain Educational Service District (IMESD)

### A. Additional Agency Terms and Conditions – all categories

---

Intermountain Education Service District (“IMESD”) is an educational service district organized under the laws of the STATE OF OREGON. Pursuant to Oregon Law ORS 279A and IMESD is authorized to cooperate with other entities and in such regard is authorized to cooperate with them in the purchasing of goods and services pursuant to these contract documents. As other entities cooperate with IMESD to take advantage of the goods and services made available pursuant to these contract documents, the terms and conditions of any such sales shall be in accordance with the contract documents.

Additionally Senate Bill 3184 enables Oregon's Education Service Districts to offer the services they provide to component school districts to other organizations. For the past 10 years, the InterMountain ESD (formerly Umatilla-Morrow ESD) has been a leader in expanding revenue available for schools and IMESD programs by providing these services outside of 19 local school districts. (*Reference: [ORS 334.185](#)*)

Under Oregon public contracting rules, each individual public agency will have its own local rules it must adhere to, in addition to statewide public contracting laws. InterMountain Education Service District does not presume that its cooperative purchasing program will necessarily comply with every agency's internal public contracting rules. We always advise potential customers to review the bid solicitation carefully and recommend review by their legal department and/or procurement personnel to assure that contracting laws are complied with.

**ADVERTISING AND MARKETING:** Bidders must demonstrate they possess the necessary resources and have a proven track record to market, offer, obtain, deliver, install and provide the sales and technical support services to IMESD and its participating agencies within the state of Oregon in a timely and cost effective manner.

**APPLICABLE LAW AND VENUE:** Any dispute arising out of any of the contract documents, or out of their performance, shall be decided by litigation in the Circuit Court of the State of Oregon in the county of Owner's residence, the parties consenting to jurisdiction in said court and permanently waiving jurisdiction in any other court, state or federal. In the event of litigation the prevailing party shall be entitled to an award of reasonable attorney's fees and costs at trial and upon any appeal thereof. In the event that the successful bidder breaches a term of condition of a contract awarded, the IMESD may terminate the contract. In addition to the right to terminate due to the successful bidder's breach, and all other rights and remedies contained in other provisions, the IMESD reserves all its rights and remedies at law and in equity available due to the breach.

**HAZARDOUS CHEMICALS:** The Successful bidder shall supply current MSDS for all products as required below even if these sheets have been supplied in previous years.

The agencies participating on IMESD agreement will need MSDS and labels for certain products defined as hazardous chemicals by the State of Oregon in accordance with ORS 654.025(2) and 656.726(3). The successful bidder has the responsibility to determine such products and to provide MSDS and labels for such products. The MSDS shall be received by the IMESD by or at the time of the initial shipment of such products.

These requirements have been determined by the State of Oregon Workers Compensation Department, and published as Oregon Administrative Rules 437, Division 2 Hazard Communication. This document is available from Hazard Communication Coordinator, Accident Prevention Division, State of Oregon, Labor and Industries Building, 350 Winter St. NE, Salem, OR 97310, phone: (503) 378-3272 or (800) 922-2689 any local Accident Prevention Division Office.

**HOLD HARMLESS:** Bidders shall indemnify, hold harmless, and defend the IMESD from any and all liabilities, settlements, losses, penalties, costs, expenses, attorney fees (including attorney fees on appeal) in collection with any action, suit or claim based upon or allegedly based upon, resulting from or allegedly resulting from the successful bidder's negligence, omission, activities or services provided pursuant to a contract awarded to such bidder.

**LAW OF THE STATE OF OREGON:** Any contract between the IMESD and a bidder shall be entered into within the State of Oregon, and the laws of said state, whether substantive or procedural, shall apply to the contract.

In addition to any requirements listed, vendor shall comply with all, current, applicable state, federal and local laws, regulations and ordinances. If through mistake or otherwise any such provision is omitted then submission by either IMESD or the vendor-partner the contract shall be amended to make such inclusion or correction. IMESD Also reserves the right to amend the contract resulting from state law changes. Vendor-partners will be sent written notification of such changes.

**SEVERABILITY:** The parties agree that if any term or provision of a resultant contract is declared by a court of competent jurisdiction to be illegal or in conflict with any law the validity of the remaining terms and provisions shall not be affected, and the rights and obligations of the parties shall be construed and enforced as if the Contract did not contain the particular term or provision held to be invalid.

**TAXES:** Taxes, whether State or Federal, shall not be included in bid prices. Our Employer Identification No: 93-6000924 indicated our tax exemption status as a political subdivision. Contractor must certify compliance with the Oregon tax laws in accordance with ORS 305.385 when applicable.

#### ***D. Procedure for Agencies Processing Orders under IMESD in Oregon***

---

Once the award is made to the vendor, IMESD will market these contracts by: 1) including the contract on the IMESD website, 2) announcing the award in flyers, and 3) attending vendor events throughout school year. A list of schools, contact names, addresses and phone number can be accessed through the Oregon Department of Education website. At this point the vendor contacts schools and schools may contact the vendor. When the school/agency identifies a product or services and agrees on price it issues to Vendor a purchase order for that item or service, referencing the AEPA Bid number. The purchase order must include an additional one percent (2%) administrative fee in the total to be forwarded by the vendor to IMESD after the sale. All participating vendors agree to and are subject to audit proceedings of IMESD member sales.

Upon receipt of the purchase order, the vendor provides the goods or service listed on the purchase order. It is important to remember the vendor makes delivery to the member unless other arrangements are made in cooperation with IMESD. When all items and services on the purchase order have been delivered to the member in a complete and satisfactory manner, vendor then invoices the member for the goods and service. This invoice includes the additional one percent (2%) administrative fee to the total amount invoiced of the goods or service provided by the vendor. This percent is based on the total sales of goods or services. The member then pays the vendor including the one percent (2%) administrative fee. Bidders are advised that the *resultant* contract(s) may be extended, with the authorization of the Bidder, to other public bodies, or public agencies or institutions of the United States to permit their use of the contract at the same prices and/or discounts and terms of the resulting contract. If any other public body decides to use the final contract, the Contractor(s) must deal directly with that public body concerning the placement of orders, issuance of purchase orders, contractual disputes, invoicing and payment. The County of Fairfax acts only as the "Contracting Agent" for these public bodies. It is the Contractor's responsibility to notify the public body(s) of the availability of the contract(s). Other public bodies desiring to use this contract will need to make their own legal determinations as to whether the use of this contract is consistent with their laws, regulations, and other policies. Each public body has the option of executing a separate contract with the Contractor(s). Public bodies may add terms and conditions required by statute, ordinances, and regulations, to the extent that they do not conflict with the contract's terms and conditions. ## **D. KCDA Additional Terms & Conditions for Construction Products and Services**

Contractor agrees that, in performance of the services required under this agreement, Contractor shall abide by all federal, state, local and Washington law and regulations that may apply to construction and public works. It is the responsibility of the Contractor to determine applicability and requirements of any such laws and to abide by them.

**a) Public Works:**

State of Washington statute requires workers be paid **prevailing wages** when employed on **public works** projects and on public building service maintenance contracts. (RCW 39.04.010, RCW 39.12.010 and 020) It is the contractor's responsibility to be acquainted with and comply with State regulations regarding payment of prevailing wages on public works projects. Prevailing Wages are established by the Washington State Department of Labor and Industries and can be obtained on the web at <http://www.lni.wa.gov/TradesLicensing/PrevWage/WageRates/default.asp> or by contacting Labor and Industries at 360-902-5335. A copy may also be requested from KCDA. KCDA serves all counties in Washington State. The County in which the project is located will be identified once a member initiates a request for the service, and the effective wage rate to be applied to a specific project is to be based on the date of this bid during the original contract term, and if contract extensions are granted, the prevailing wage rate in affect at the time of the latest extension.

Application: The Public Works Act regulates wages paid to workers, laborers and mechanics performing public work. It does not apply to work that is clerical, executive administrative or professional in nature. It does not apply to work of a secretary, engineer, or administrator, unless they are performing construction work, alteration work, repair work, etc. Prevailing wage application depends on the work that is performed, regardless of the worker's job title. (RCW 39.12.020 and WAC 296-128-510 through 530)

Definition: Public Works is all work, construction, alteration, repair or improvement that is executed at the cost of the state or any other local public agency. This includes, but is not limited to, demolition, remodeling, renovation, road construction, building construction, ferry construction and utilities construction. (RCW 39.04.010)

Public Building Service Maintenance Contracts: Prevailing wages are also required on all public building service maintenance (janitorial) contracts. (RCW 39.12.020)

**Contractors bidding a Public Works project exceeding \$1,000,000.00 must declare who their HVAC, Mechanical and Electrical subcontractors will be within one hour of bid submission and the listing of structural installation and rebar installation subcontractors within 48 hours of bid submission, and submit this information with bid documents in order for the bid to be responsive. (RCW 39.30.060).**

Apprentice Utilization Requirements (AURs)

Public works projects should conduct a 15% apprentice utilization requirement if the project belongs to any of below,

- State public works estimated to cost \$1 million dollars or more;
- Department of Transportation projects estimated to cost \$2 million or more;
- All school district public works projects estimated to cost \$1 million or more; and
- All public works by a state four-year institution of higher learning estimated to cost \$1 million or more.

And one of three requirements should happen on a project:

- The project meets the 15% AUR;
- The project does not meet the 15% AUR, however the awarding agency approves a good faith effort; or
- The monetary penalty written in the contract is assessed.

Good faith efforts are for the entirety of a project, not a single occupation unless there happens to be only one apprenticeable occupation on the project. Therefore, the prime contractor cannot only consider their occupation(s) when requesting a good faith effort and leave out the occupations and workforce used by subcontractors.

Within existing resources, awarding agencies are responsible for monitoring apprenticeship utilization hours by contractor. There must be a specific line item in the contract specifying that apprenticeship utilization goals should be met, monetary incentives for meeting the goals, monetary penalties for not meeting the goals, and an expected cost value to be included in the bid associated with meeting the goals. The awarding agency must report the apprenticeship utilization by contractor and subcontractor to the supervisor of apprenticeship at the department of labor and industries by final project acceptance. The electronic reporting system that is being developed by the department of labor and industries may be used for either or both monitoring and reporting apprenticeship utilization hours.

Refer to RCW 39.04.320, which covers apprentice utilization on public works projects for detailed information.

**Reciprocity:** In accordance with RCW 39.04.380 any bidding process for public works in which a bid is received from a nonresident contractor from a state that provides a percentage bidding preference, a comparable percentage disadvantage must be applied to the bid of that nonresident contractor. This does not apply to public works procured pursuant to RCW 39.04.155, 39.04.280 or other procurement exempt from competitive bidding.

**b) Prevailing Wage:**

**Definition:** Prevailing Wage is the hourly wage, usual benefits and overtime, paid in the largest city in each county, to the majority of workers, laborers and mechanics. The rate is established by the Department of Labor and Industries for each trade and occupation employed in the performance of public work. **If Federal funds are used, bidders must comply with provisions of Davis-Bacon Act.**

**Basic procedures:** A Statement of Intent to Pay Prevailing Wages and Affidavit of Wages Paid must be filed and approved for the contractor and all subcontractors. No payments can be made until all contractors/subs have submitted an approved intent form. KCDA cannot release retainage until all Contractors have an approved Affidavit of Wages Paid form certified by the Industrial Statistician. (RCW 39.12.030, 040, 042) Once the work is successfully completed, KCDA will release 95% of the project cost and withhold 5% retainage for 45 days as dictated by law. The final 5% will be paid when the following is completed: Receipt of approved Affidavit of Wages Paid Forms, Releases from Washington State Department of Labor & Industries, Employment Security Department and the Department of Revenue, and acceptance of project completion to the satisfaction of the KCDA ordering member. **The cost of filing required Intents and Affidavits is the responsibility of the Contractor, and may not be added as a line item charged to the member agency. All Intents and Affidavits must name the agency for whom work is being performed as the contract award agency, not KCDA.**

**Federally Funded Projects:** In addition to the Federal Requirements of Section III, Housing and Urban Development (HUD) Terms and Conditions, **Davis-Bacon** prevailing wage requirements apply to public works construction contracts of \$2,000 or more when a project includes any federal funding of any amount. When there is a difference between applicable state and federal prevailing wages for a particular classification of labor, contractors and subcontractors are required to pay the higher of the two prevailing wages. Applicable federal prevailing wage determinations can be found at <http://www.wdol.gov/>. Contractors/Subcontractors must be knowledgeable and adhere to all federal prevailing wage requirements, including but not limited to paying workers weekly and providing certified weekly payrolls for the contractor and subcontractors of any tier as required in the Davis-Bacon Act and applicable U.S. Department of Labor regulations. Falsification of any prevailing wage payroll records may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of Title 18 and section 231 of Title 31 of the United States Code. Contractor shall inform all subcontractors of the Davis-Bacon requirements and the prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses. Contractor must coordinate all requirements related to federal funded projects with the KCDA member Agency.

The only exception is for contracts of one hundred fifty thousand (\$150,000) dollars or less. In this instance, at the option of the Contractor, the member may in lieu of the bond retain ten percent of the contract amount for a period of thirty days after date of final acceptance, or until receipt of all necessary releases from the Department of Revenue, Employment Security Department, and the Department of Labor and Industries and settlement of any liens filed under Chapter 60.28 RCW, whichever is later. Performance and Payment bonds for KCDA members outside Washington must be provided by companies licensed to provide bonds for public entities in the member’s state.

**Licenses**

The prime contractor shall possess and maintain in current status all federal, state, and local licenses, bonds, and permits required for the performance and delivery of any and all products and services offered in its response to the bid solicitation. Before submitting a bid, Bidders must hold a current, valid contractor’s license as required in Washington. The contractor’s license must be in the name of the legal entity submitting and signing the bid. A Bidder may not substitute a contractor’s license held by a subcontractor or joint venture. In addition, the Commercial General Liability policies must be endorsed to name KCDA and the KCDA member as additional insureds. Such policies must be further endorsed to provide that the insurance is primary as respects KCDA and the KCDA member, and that any other insurance maintained by KCDA and the KCDA member shall be excess and not contributing insurance with the Contractor's insurance. These endorsements must be provided along with the certificate of insurance. The KCDA member must both approve the certificate of insurance and endorsements.
- f) **Acceptable Pricing Method:**  
KCDA is unable to accept Alternative Costing Method quotations except in certain limited instances, (i.e. sole source) in which KCDA and Vendor may mutually determine the Alternative Costing Method is acceptable. This will be the exception rather than the rule. RS Means or line item bid pricing is acceptable.

**g) Progress Payments:**

The Contractor shall be paid, upon submission of a proper Payment Request, the prices stipulated herein for work performed (less deductions, if any), in accordance with all payment and retainage instructions herein. Submitted Payment Requests must contain the following minimum information:

- a. Contract Number
- b. Bid item ID, bid quantity, unit, unit price and description as appropriate

The Payment Request will be reviewed by the Member before payment is made. If the Member is in disagreement with the Payment Request, KCDA will issue a notice requesting a revised Payment Request.

KCDA, at its discretion, reserves the right to withhold payment on a given project, pending receipt of payment from the customer.

In accordance with RCW 51.12.050, KCDA reserves the right to deduct from the payment any outstanding industrial insurance premiums owed by the Contractor or Subcontractors.

**h) Payment Retainage:**

In accordance with RCW 60.28 contract retainage [*not to exceed five percent of the moneys earned by the contractor toward completion of a public improvement contract*] shall be withheld and reserved in one of two ways:

- a. As a trust fund for the protection and payment of 1) the claims of any person arising under the contract, and 2) the state with respect to taxes imposed pursuant to Titles 50, 51 and 82 RCW which may be due from such contractor. Upon completion of a contract, the member agency shall notify the Department of Revenue, the Employment Security Department, and the Department of Labor and Industries of the completion of contracts over one hundred fifty thousand dollars. KCDA will issue payment on the retainage amount forty-five days after notice from the KCDA Member Agency that the contract has been accepted as complete **or** upon receipt of all necessary releases, whichever is later.
- b. Option of providing retainage bond for the full amount of the retainage (5% of the contract amount with a performance bond). This bond is separate from the performance bond under RCW 39.08.10. Providing a retainage bond means no retainage is withheld. If you choose to provide a retainage bond a copy of the bond must be submitted.

**i) FORCE MAJEURE**

Except for payments of sums due, neither party shall be liable to the other, nor be deemed in default under this contract, if and to the extent that such party's performance of this contract is prevented by reason of force majeure. The term "force majeure" means an occurrence that is beyond the control **or** responsibility of the party affected and occurs without its fault or negligence, including, but not limited to the following: acts of God; acts of the public enemy; war; riots; strikes; industry-wide labor disputes; civil disorders; fire; flood; snow; earthquakes;

tornadoes or violent winds; hail storms; lockouts; injunctions-intervention-acts, or failures or refusals to act by government authority; and other similar occurrences beyond the control or responsibility of the party declaring force majeure, which such party is unable to prevent by exercising reasonable diligence. The party receiving the notice of force majeure may contest the declaration of a force majeure. Force majeure shall not include late deliveries of equipment or materials caused by congestion at a manufacturer's plant or elsewhere, an oversold condition of the market, inefficiencies, internal labor disputes, or similar occurrences. If either party is delayed at any time by force majeure, the delayed party shall notify the other party in writing of such delay within forty-eight (48) hours.

## C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

### Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a “fair and open” process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s. 2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee\*<sup>1</sup>
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
  - of the public entity awarding the contract
  - of that county in which that public entity is located
  - of another public entity within that county
  - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an “interest” ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs)

When the business entity is a natural person, “a contribution by that person’s spouse or child, residing therewith, shall be deemed to be a contribution by the business entity.” [N.J.S.A. 19:44A-20.26(b)]. The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor’s responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed over sheet) may be used as the contractor’s submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

### Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a “fair and open” process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s. 2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee\*<sup>2</sup>
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
  - of the public entity awarding the contract
  - of that county in which that public entity is located
  - of another public entity within that county
  - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an “interest” ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs)

When the business entity is a natural person, “a contribution by that person’s spouse or child, residing therewith, shall be deemed to be a contribution by the business entity.” [N.J.S.A. 19:44A-20.26(b)]. The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor’s responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed over sheet) may be used as the contractor’s submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

Every pre-qualified Bidder must submit with his proposal, a notarized affidavit setting forth the type of work and the amount of work for which he has been qualified, that there has been no material adverse change in his qualification information, the total amount of completed work on contracts at the time and date of the classification. **Any bid not including a copy of this affidavit shall be rejected as being non-responsive to bid requirements.** (N.J.S.A. 18A:18A-32)

The ESCNJ may make such additional investigations as it deems necessary to determine the ability, competence and financial responsibility of the bidder to perform their work. The bidder shall furnish the ESCNJ with the information and data for this purpose upon request. The ESCNJ reserves the right to reject any bid if the information fails to establish to the ESCNJ's satisfaction that the bidder is properly qualified to carry out the obligations of the contract and to complete the work contemplated here.

E. **Uncompleted Contracts**--(For Contracts Exceeding \$20,000) - N.J.A.C. 17:19-2.13(a)

The contractor and his sureties shall be liable for any excess costs occasioned thereby to the public body.

**CONSTRUCTION CONTRACTS**

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Except with respect to affectional or sexual orientation and gender identity or expression, the contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex.

The contractor or subcontractor will send to each labor union, with which it has a collective bargaining agreement, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer, pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

When hiring or scheduling workers in each construction trade, the contractor or subcontractor agrees to make good faith efforts to employ minority and women workers in each construction trade consistent with the targeted employment goal prescribed by N.J.A.C. 17:27-7.2; provided, however, that the Dept. of LWD, Construction EEO Monitoring Program, may, in its discretion, exempt a contractor or subcontractor from compliance with the good faith procedures prescribed by the following provisions, A, B, and C, as long as the Dept. of LWD, Construction EEO Monitoring Program is satisfied that the contractor or subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Dept. of LWD, **Construction EEO Monitoring Program, that its percentage of active "card carrying" members who are minority and women workers** is equal to or greater than the targeted employment goal established in accordance with N.J.A.C. 17:27-7.2. The contractor or subcontractor agrees that a good faith effort shall include compliance with the following procedures:

(A) If the contractor or subcontractor has a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor shall, within three business days of the contract award, seek assurances from the union that it will cooperate with the contractor or subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et. seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five business days prior to the commencement of construction work, the contractor or subcontractor agrees to afford equal employment opportunities minority and women workers directly, consistent with this chapter. If the contractor's or subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with affording equal employment opportunities as specified in this chapter, the contractor or subcontractor agrees to be prepared to provide such opportunities to minority and women workers directly, consistent with this chapter, by complying with the hiring or scheduling procedures prescribed under (B) below; and the contractor or subcontractor further agrees to take said action immediately if it determines that the union is not referring minority and women workers consistent with the equal employment opportunity goals set forth in this chapter.

- (D) N.J.S.A. 10:5-31 et seq. (P.L. 1975, c.127)
- (E) N.J.A.C. 17:27-1.1 et seq.
- (F) CONSTRUCTION CONTRACTS-continued

(B) If good faith efforts to meet targeted employment goals have not or cannot be met for each construction trade by adhering to the procedures of (A) above, or if the contractor does not have a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor agrees to take the following actions:

(1) To notify the public agency compliance officer, the Dept. of LWD, Construction EEO Monitoring Program, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

(2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;  
EXHIBIT B (Continued)

(3) Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job openings, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;

(4) To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area;

(5) If it is necessary to lay off some of the workers in a given trade on the construction site, layoffs shall be conducted in compliance with the equal employment opportunity and nondiscrimination standards set forth in this regulation, as well as with applicable Federal and State court decisions;

(6) To adhere to the following procedure when minority and women workers apply or are referred to the contractor or subcontractor:

(i) The contractor or subcontractor shall interview the referred minority or women worker.

(ii) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the contractor or subcontractor shall in good faith determine the qualifications of such individuals. The contractor or subcontractor shall hire or schedule those individuals who satisfy appropriate qualification standards in conformity with the equal employment opportunity and non-discrimination principles set forth in this chapter. However, a contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Dept. of LWD, Construction EEO Monitoring Program. If necessary, the contractor or subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.

(iii) The name of any interested women or minority individual shall be maintained on a waiting list, and shall be considered for employment as described in above, whenever vacancies occur. At the request of the Dept. of LWD, Construction EEO Monitoring Program, the contractor or subcontractor shall provide evidence of its good faith efforts to employ women and minorities from the list to fill vacancies.

(iv) If, for any reason, said contractor or subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the contractor or subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Dept. of LWD, Construction EEO Monitoring Program.

(7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Dept. of LWD, Construction EEO Monitoring Program and submitted promptly to the Dept. of LWD, Construction EEO Monitoring Program upon request.

(C) The contractor or subcontractor agrees that nothing contained in (B) above shall preclude the contractor or subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and

trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the targeted county employment goal, the contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the contractor or subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journeyworker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also, the contractor or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the contractor shall submit to the public agency compliance officer and the Dept. of LWD, Construction EEO Monitoring Program an initial project workforce report (Form AA-201) electronically provided to the public agency by the Dept. of LWD, Construction EEO Monitoring Program, through its website, for distribution to and completion by the contractor, in accordance with N.J.A.C. 17:27-7. ## Uniform Guidance “EDGAR” Certification Form

### 2 CFR Part 200

When a purchasing agency seeks to procure goods and services using funds under a federal grant or contract, specific federal laws, regulations, and requirements may apply in addition to those under state law. This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 CFR 200, referred to as the “Uniform Guidance” or new “EDGAR”. All Respondents submitting proposals must complete this EDGAR Certification form regarding the Respondent’s willingness and ability to comply with certain requirements, which may apply to specific agency purchases using federal grant funds.

For each of the items below, the Respondent will certify its agreement and ability to comply, where applicable, by having the Respondent’s authorized representative check, initial the applicable boxes, and sign the acknowledgment at the end of this form. If a Respondent fails to complete any item of this form, AEPA will consider and may list the response, as the Respondents are unable to comply. A “No” response to any of the items below may influence the ability of a purchasing agency to purchase from the Respondent using federal funds.

#### 1. Violation of Contract Terms and Conditions

Provisions regarding Respondent default are included in AEPA’s terms and conditions. Any contract award will be subject to such terms and conditions, as well as any additional terms and conditions in any purchase order, ancillary agency contract, or construction contract agreed upon by the Respondent and the purchasing agency, which must be consistent with and protect the purchasing agency at least to the same extent as AEPA’s terms and conditions. The remedies under the contract are in addition to any other remedies that may be available under law or in equity.

#### 2. Termination for Cause of Convenience

For a participating agency purchase or contract in excess of \$10,000 made using federal funds, you agree that the following term and condition shall apply:

The participating agency may terminate or cancel any purchase order under this contract at any time, with or without cause, by providing seven (7) business days in advance written notice to the Respondent. If this agreement is terminated in accordance with this paragraph, the participating agency shall only be required to pay Respondent for goods and services delivered to the participating agency prior to the termination and not otherwise returned in accordance with the Respondent’s return policy. If the participating agency has paid the Respondent for goods and services provided as the date of termination, Respondent shall immediately refund such payment(s).

If an alternate provision for termination of a participating agency’s purchase for cause and convenience, including how it will be affected and the basis for settlement, is in the participating agency’s purchase order, ancillary agreement or construction contract agreed to by the Respondent, the participating agency’s provision shall control.

#### 3. Equal Employment Opportunity

Except as otherwise provided under 41 CFR Part 60, all participating agency purchases or contract that meet the definition of “federally assisted construction contract” in 41 CFR Part 60-1.3 shall be deemed to include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 CFR Part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.”

The equal opportunity clause provided under 41 CFR 60-1.4(b) is hereby incorporated by reference. Respondent agrees that such provision applies to any participating agency purchase or contract that meets the definition of “federally assisted construction contract” in 41 CFR Part 60-1.3 and Respondent agrees that it shall comply with such provision.

#### 4. Davis Bacon Act

When required by Federal program legislation, Respondent agrees that, for all participating agency contracts for the construction, alteration, or repair (including painting and decorating) of public buildings or public works, in excess of \$2,000, Respondent shall comply with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, Respondent is required to pay wages

to laborers and mechanics at a rate not less than the prevailing wages specific in a wage determinate made by the Secretary of Labor. Also, Respondent shall pay wages not less than once a week.

Current prevailing wage determinations issued by the Department of Labor are available at [www.wdol.gov](http://www.wdol.gov). Respondent agrees that, for any purchase to which this requirement applies, the award of the purchase to the Respondent is conditioned upon Respondent's acceptance of wage determination.

Respondent further agrees that is shall also comply with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each construction completion, or repair of public work, to give up any part of the compensation to which he is otherwise entitled under his contract of employment, shall be defined under this titled or imprisoned not more than five (5) years, or both.

#### **5. Contract Work Hours and Safety Standards Act**

Where applicable, for all participating agency purchases in excess of \$100,000 that involve the employment of mechanics or laborers, Respondent agrees to comply with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, Respondent is required to compute the wages of every mechanic and laborer based on a standard workweek of 40 hours. Work in excess of the standard workweek is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the workweek. The requirements of the 40 U.S.C. 3704 applies to construction work and provides that no laborer or mechanic must be required to work in surroundings or under working conditions that are unsanitary, hazardous, or dangerous. These requirements do not apply to the purchase of supplies, materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

#### **6. Right to Inventions Made Under a Contract or Agreement**

If the participating agency's federal award meets the definition of "funding agreement" under 37 CFR 401.2(a) and the recipient or sub-recipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance or experiments, developmental or research work under the "funding agreement," the recipient or sub-recipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

#### **7. Clean Air Act and Federal Water Pollution Control Act**

Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended, contracts and subgrants of amounts in excess of \$150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). When required, Respondent agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act and the Federal Water Pollution Control Act.

#### **8. Debarment and Suspension**

Debarment and Suspension (Executive Orders 12549 and 12689), a contract award (see 2 CFR 180.222) must not be made to parties listed on the government-wide exclusions in the System for Award Management (SAM), in accordance with OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1966 Comp. p. 189) and 12689 (3 CFR Part 1989 Comp. p. 235), "Debarment and Suspension." The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery, and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

## Marketing Plan

The Bluum Marketing Department will gather marketing materials and meet the requirements for the promotion of this contract to applicable areas and states. Upon award, the Marketing Department will work with, Bluum Account Executives to support Bluum's presence on the contract:

Bluum leads an in-house team of marketing and communications experts who proactively market products, solutions, and services offered by Bluum and its manufacturer partners, both on a national and regional level. The Marketing team works collaboratively with the Bluum Sales team in support of building awareness of Bluum/manufacturer capabilities, offered through contract vehicles, to those schools/districts who are eligible to purchase through the vehicle.

Both the Bluum Sales and Marketing teams have experience with multiple cooperative contracts and AEs who are new to Bluum are trained as new hires to understand the complexities of cooperative contracts in their region.

### Here are some ways we support our contracts:

- **Interaction:** We have local Account Executives based across each state, who work directly with schools to communicate the value of and ease-of-use of the contract. One of the primary ways we support cooperative contracts is, simply, getting the word out when visiting CP customers. In our day-to-day conversations within the communities, our Account Executives are also educating those who are not current participants, emphasizing the simplicity and benefits of purchasing through the co-op.
- **Communication Pieces:** Bluum can feature the specific logos, in marketing content on the web, social media, email communication, in electronic promotional offerings and specials, and notate on quotes, letting our customers know that we are an awarded Vendor. Often times, targeted visibility helps to start the conversation.
- **Events:** Bluum participates in dozens of trade shows and events throughout the country, virtually and in-person. Bluum regularly participates in TCEA, TCAA, and local events, in addition to hosting our own.

Bluum Account Executives have experience with multiple cooperative contracts, and new Account Executives are trained in how to utilize and incorporate cooperative contracts into their day-to-day sales. If awarded, the agreement will be an additional part of the new hire training, and existing Account Executives will be notified and have access to the contract. Bluum's local Account Executives, as well as the Bluum Bid Department, will be available to all Account Executives for assistance in managing the contract, as well.

## Community and Green Initiatives

### Companywide Initiatives

As often as possible with our customer's best interest in mind, Bluum, consisting of Troxell Communications, Inc., CDI Technologies, Summit Integration Systems, Tierney Brothers and CDI Dallas LLC, will strive to:

- *Offer and promote manufacturers' energy efficient products to end users, particularly those with energy efficiency ratings*
- *Offer and promote manufacturers' products containing recycled components to end users*
- *Support and promote manufacturers' recycling programs for lamps and other electronic components*
- *Utilize drop-shipping capabilities from manufacturer to end user to effect fuel savings*
- *Use of minimum 30% PCW paper*
- *As often as possible, boxes and packing materials received in our warehouse are re-used*

Bluum works with many manufacturers that provide products with green initiatives in mind, products that contain recycled material or packaging or are able to be recycled. The number of recycled/recyclable parts varies by product and by manufacturer.

Additionally, Bluum has initiative, through CDI Technologies' refurbishing facilities in Markham, Ontario, Canada and Dallas, Texas, to sell carbon offset credits on the open market. In 2018, the refurbishment process was reviewed and it was determined that by keeping technology equipment out of landfills we are reducing the carbon footprint. If we re-sell refurbished assets and add warranty, that gives assurance these assets will not be destroyed in the next three years. We received carbon credits for the majority of refurbished assets we re-deploy. CDI's long time refurbishment business helps reduce the overall carbon footprint.

We've attached additional information on the carbon credits we registered and the initiative, for our facility in Markham.

### Initiatives Specific to Corporate Headquarters

The headquarters for the Bluum brand group is in Phoenix, Arizona, the heart of the hot and arid Southwest United States. As desert-dwellers, Arizonans are particularly conscious of the need to conserve resources, especially water and energy.

- **Water Conservation:** The building's exterior landscaping is drought-resistant and requires very little water to sustain growth. All plumbing systems are regularly checked and maintained to ensure the lowest water usage possible.
- **Electricity Conservation:** Standard filament light-bulbs have been replaced with more energy efficient bulbs. All non-emergency lights and workstations are powered off when not in use.

Digital air conditioning system controls have replaced outdated thermostats throughout the building allowing for timed programming of all AC units.

- **Ride-sharing:** The air quality in Phoenix is an on-going environmental issue. Bluum encourages co-workers to carpool whenever possible to reduce vehicle emissions which improves air quality.
- **Corporate Recycling:** Reverse osmosis water systems have been installed throughout the building to greatly reduce the quantity of bottled drinking water consumed by employees and visitors, thereby reducing the quantity of discarded plastic bottles. Toner cartridges are recycled.  
Any computer or peripheral product such as a printer or monitor that is no longer in use but is in usable condition is donated to a local charity which supports K-12 education.  
Recyclable office supplies and promotional items are purchased whenever possible.

## Charitable Contributions

In the past, Bluum has worked with various kinds of charitable organizations, such as the American Cancer Society, Habitat for Humanity, Arizona Veterans Hospital, Salvation Army Christmas Angels, Phoenix Rescue Mission, United Blood Services, Newborns in Need, St. Vincent de Paul, and many others, through Bluum and the corporate office.

In addition, Bluum has worked with other companies and non-profit organizations in the effort improving youth access to technology. Notable CDI projects have included work with Comcast in the internet essential program providing low-cost technology to youth helping fill the gap with the digital divide in the United States. Another organization we've partnered with is Ifoster, with the goal of helping foster kids/students get access to technology, where they would not normally have an opportunity. This kind of access is important to raising graduation rates and reducing unemployment of foster youth throughout the US.

With the new collaborative efforts of our affiliated companies, the Bluum brand group, has plans in the works for creating a bigger difference for our communities in Phoenix, Arizona; Dallas, Texas; Markham, Ontario, Canada; and throughout.

# Uniform Guidance "EDGAR" Certification Form

## 2 CFR Part 200

When a purchasing agency seeks to procure goods and services using funds under a federal grant or contract, specific federal laws, regulations, and requirements may apply in addition to those under state law. This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 CFR 200, referred to as the "Uniform Guidance" or new "EDGAR". All Respondents submitting proposals must complete this EDGAR Certification form regarding the Respondent's willingness and ability to comply with certain requirements, which may apply to specific agency purchases using federal grant funds.

For each of the items below, the Respondent will certify its agreement and ability to comply, where applicable, by having the Respondent's authorized representative check, initial the applicable boxes, and sign the acknowledgment at the end of this form. If a Respondent fails to complete any item of this form, AEPA will consider and may list the response, as the Respondents are unable to comply. A "No" response to any of the items below may influence the ability of a purchasing agency to purchase from the Respondent using federal funds.

### 1. Violation of Contract Terms and Conditions

Provisions regarding Respondent default are included in AEPA's terms and conditions. Any contract award will be subject to such terms and conditions, as well as any additional terms and conditions in any purchase order, ancillary agency contract, or construction contract agreed upon by the Respondent and the purchasing agency, which must be consistent with and protect the purchasing agency at least to the same extent as AEPA's terms and conditions. The remedies under the contract are in addition to any other remedies that may be available under law or in equity.

### 2. Termination for Cause of Convenience

For a participating agency purchase or contract in excess of \$10,000 made using federal funds, you agree that the following term and condition shall apply:

The participating agency may terminate or cancel any purchase order under this contract at any time, with or without cause, by providing seven (7) business days in advance written notice to the Respondent. If this agreement is terminated in accordance with this paragraph, the participating agency shall only be required to pay Respondent for goods and services delivered to the participating agency prior to the termination and not otherwise returned in accordance with the Respondent's return policy. If the participating agency has paid the Respondent for goods and services provided as the date of termination, Respondent shall immediately refund such payment(s).

If an alternate provision for termination of a participating agency's purchase for cause and convenience, including how it will be affected and the basis for settlement, is in the participating agency's purchase order, ancillary agreement or construction contract agreed to by the Respondent, the participating agency's provision shall control.

### 3. Equal Employment Opportunity

# REFRESH YOUR TECHNOLOGY

Our trade-in program, Bluum Buyback, allows you to swap your older devices to get new devices using credits from your trade-in. Our program allows you to get newer equipment sooner by continuously upgrading your devices when you trade in your retired devices.

At Bluum, we know how important it is to have access to current technology and have provided a way of turning older IT assets into cash or credit. Our program ensures you stay compliant with data privacy and environmental laws while getting the best value from your retired devices.

In addition to getting the best value for your surplus IT devices, our program also ensures data security and the most positive environmental impact. Bluum's programs have resulted in well over six million devices being refurbished for a second life. Working with the Bluum Buyback program, your business contributes to the circular economy of re-use and ensures the proper downstream recycling of equipment that is electronic waste.

We will create an overall game plan structured around the AEPA. Strategic sales and marketing plans by state, and region, with local initiatives tailored to the needs of members. Our team will conduct research, and schedule meetings with stakeholders. It is our intent to utilize network marketing, email campaigns, social media, and to host ITAD Buyback events.

In addition, we will offer to every member an exclusive Trade-In Portal, an On-Line Sales Channel called Tech U Marketplace. We describe more about these programs in the Products, Services & Solutions section.

## Products, Services & Solutions

Provide a description of the Products, Services & Solutions to be provided by the product category set forth in Part B - Specifications. The primary objective is for each Supplier to provide its complete product, service, and solutions offerings that fall within the scope of this solicitation so that participating agencies may order a range of products as appropriate for their needs.

Service Offerings: For the retired technology assets such as laptops, desktops, Chromebooks, tablets, and other related technology devices we can supply the following services and solutions:

**Nationwide Trade-In:** We currently manage an employee Trade-In portal for obsolete laptops, tablets, Apple and cell phone products for the largest global rewards service company in the world. The AEPA will be able to offer members a real advantage. Members will receive a real-time offer for their obsolete devices. Our platform is designed to scale to thousands of individual transactions. The member logs in to the platform, selects their device from the drop-down menu, answers some questions about the device, and is given an instant quote. They then receive a prepaid shipping label; we verify the product and expedite payment.

**AEPA Admin. and Member Portals:** Our member portal integrations as highlighted in the graphic below will give the AEPA complete transparency and information. From quotes, settlements, reports, and sustainability all in a single login environment.

**On-Site Inspections:** When your members do not have the time or resources available to document and evaluate the devices a Total AE will come to your location and inspect the devices and provide an initial evaluation.

**Fair Market Value:** Our seasoned team of analysts combined with proprietary AI software will provide real-time fair market value pricing for the devices. These quotes can be prepared with provided asset lists, photos, or through an on-site visit.

**Secure Transport:** As necessary Total can coordinate and document secure sealed transport from chain-of-custody release to a processing facility.

**Assured Destruction:** In the event that devices require wiping or physical destruction we provide a full suite of services that are NIST 800-88 and NSA compliant. We offer both In-Plant and On-Site shredding of Information Containing Devices such as Hard Drives.

**End-of-Life Recycling:** BER (Beyond Economic Repair) items that may be a part of a portfolio are sustainably recycled through our network of audited R2RPN™ (R2 Recycling Partner Network). We look at Carbon Footprint variables and pick the best service solution and provide our clients with a one-stop approach to solve the issues for an entire fleet of devices.

**Sustainability Reports:** AEPA participating members can access state-specific compliance reports and information.

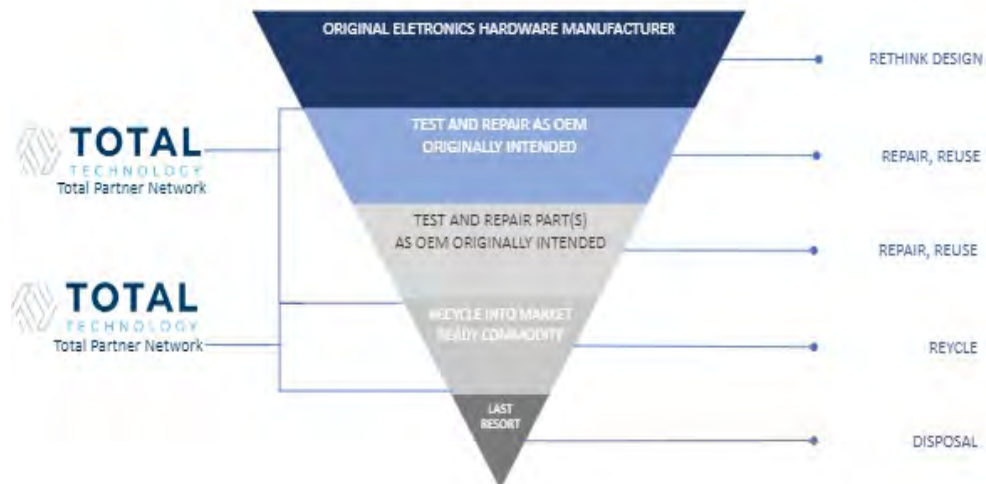

Describe and list the types and brands of technology devices that your company is willing and offering to buy from agencies.

Our plan is to provide a solution for all electronic devices. We specialize in tablets, laptops, mobile devices, desktops, servers, and networking equipment from Apple, Dell, HP, Lenovo, Samsung, Google, Acer, and Cisco to name just a few. We would evaluate each lot, determine if the devices are suitable for resale or recycling, and then make a fair market offer.

Some items due to age and functionality may need end-of-life recycling. Total would manage the entire process. We follow a Hierarchy of Sustainability.

Describe the various roles/responsibilities of all parties in a buyback. Provide detail from inquiry to final payment.

\*AE = Account Executive FMVA = Fair Market Value Assessor

Describe your company's process for determining the fair market value of technology assets. Describe what factors drive the cost of services. Describe how quotes and any guarantees are made to the participating agency.

We place the asset information into our proprietary software where real-time Fair Market Values are assigned based on manufacturer retail pricing, market trends, device age, and current product demand. The FMVA reviews the data and factors in additional adjustments per our historical database as applicable.

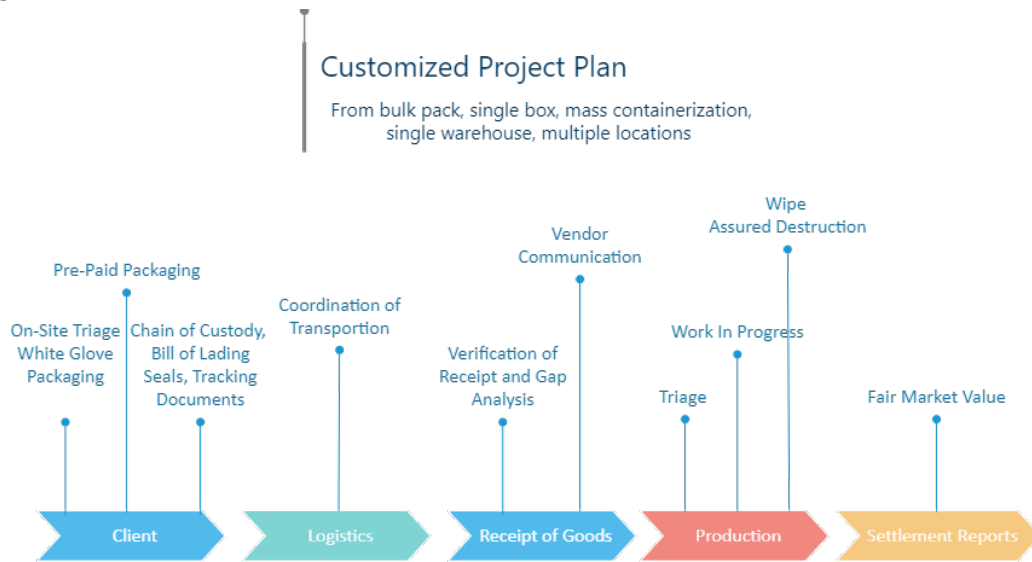

Freight and labor would drive the cost of services.

We have made pricing guarantees based on the condition, volume, and availability of the devices.

We currently provide our FMV Service to Apple Financial Services, Dell Financial Partners, as well as other OEM's and Trade-In Partners.

Describe your company's process on how the technology is obtained/collected and recovered from the participating agency. Describe how packaging, logistics, and freight factor into the buyback process.

Once a Quote is accepted a Project ID is assigned and followed through the entire process. Depending on the Scope of Work, volume, and the distance from our processing facilities our project team goes to work to set up the best game plan for managing the lot. We offer a myriad of service solutions: White Glove, 3<sup>rd</sup> Party Transport, and Mail Back programs.

Contactless COVID protocols meet or exceed jurisdictional requirements. Our project management team directly communicates progress. And clients have site lines to each project through reports and information provided through our secure Client Portal.

Due to the volume and size that we currently collect nationwide our freight logistic rates fall under the industry average allowing us to pass these savings to our clients.

Describe your company's policy in relation to responsibility/liability for assets in transit. Describe the chain of custody, and reconciliation of assets damaged or lost in transit. Describe the reconciliation process once items are received at your facility

We have the appropriate insurance mechanisms, we carry a 3-million-dollar nationwide UPS Cargo Insurance policy, with external provider agreements in place to protect AEPA members in the event of damages occurring in transport. Once the Chain-of-Custody is released to Total the assets become our responsibility. Upon receipt, at our processing facility, a Gap Analysis is conducted, and any anomalies are communicated to the District by the AE.

Describe how your company meets or exceeds NIST 800-88 standards for data destruction.

We perform NIST 800-88 and NSA-compliant wipes. Total has implemented a Data Sanitization Quality Control Procedure. Our process includes digital encryption validation by independent commercial software. Evidence of our validation audits are available. We have a dedicated Data Protection Representative assigned to this validation process. (See DSQC Attached)

Describe the process your company uses to ensure no data, files, information, identifying marks, or asset tags remain on the technology when they are either sold or destroyed.

Our Data Sanitization Plan includes the physical removal of all data files, markings, etchings, asset tags, and any other markings as part of our Quality Control Procedure. (See QCP Attached)

The assigned Account Executives along with our marketing and SDR team will create relevant email campaigns introducing the ITAD Buyback services.

We plan on hosting web and social events with content for Tech Directors, Districts, and government agencies such as What does Data Protection really mean? Electronics Recycling by State understanding the regulations that affect you., the Trade-In and [REDACTED] the AEPA Portals, and the Utilization of the AEPA contract.

We would implement a strategic business development campaign that combines strategic emails with telephone outreach.

[REDACTED]

  - Event hosting of relevant content as it relates to the contract and service capabilities
  - Conduct Regional and local research
  - Exhibit and attend all Trade Shows and events

**Purpose**

Total Technology shall manage the movement of R2 Controlled Streams through their downstream recycling chain, to final disposition or the first R2 facility, using the REC and confirm conformance by each downstream vendor to R2 Appendix A.

**Responsibility and Authority**

The QEHS Management Representative shall have the responsibility and authority to ensure conformance to the activities described in this procedure.

**Initial Due Diligence**

1. Potential vendors shall complete and return the Downstream Vendor Questionnaire (or provide equivalent documentation).
2. If a downstream vendor is R2v3 Certified, then verification that the R2v3 Certification is active with a certification scope, including applicable Process Requirements, consistent with the equipment, components, and material received and the processes performed, shall qualify the downstream vendor to receive shipments without further downstream tracking and verification, which is alternately addressed through the downstream vendor’s R2v3 Certification. Verification is recorded on the Downstream Recycling Chain Flowchart.
3. If a downstream vendor is not R2v3 Certified, Total Technology shall determine before shipment and reasonably confirm at least annually and document, through audits or other formal review, that each downstream vendor receiving an R2 Controlled Stream through the entire recycling chain continues to conform to the requirements of this section for as long as it receives R2 Controlled Stream directly or indirectly from the Total Technology facility.
  - a. If the Downstream Vendor Questionnaire (or equivalent) is acceptable, Total Technology shall conduct a desk audit of each vendor in the entire recycling chain to ensure they meet Total Technology’s requirements and R2 Appendix A requirements. The desk audit(s) shall be recorded on the R2 Desk Audit Checklist. All required due diligence required by R2 shall be conducted and records maintained. Verification of completion is recorded on the Downstream Recycling Chain Flowchart.
  - b. If the desk audit is acceptable, Total Technology may elect to conduct an on-site audit of the vendor to ensure they meet Total Technology’s requirements and R2 requirements. The on-site audit shall be recorded on the R2 On-Site Audit Checklist. Determination of whether an on-site audit should be conducted is based on vendor history, desk audit

4. After completion of the review/audit(s) and due diligence, Total Technology shall either approve or disapprove the downstream vendor. Vendors approved shall be listed on the Downstream Recycling Chain Flowchart.
5. Total Technology shall keep up to date the Downstream Recycling Chain Flowchart that lists the vendors used to process R2 Controlled Streams to the end process.

**On-Going Diligence**

1. If a downstream vendor is R2v3 Certified, then annual verification that the R2v3 Certification is active with a certification scope, including applicable Process Requirements, consistent with the equipment, components, and material received and the processes performed shall be recorded on the Downstream Recycling Chain Flowchart.
2. If a downstream vendor is not R2v3 Certified, Total Technology shall assure on-going conformance of the downstream vendor to Total Technology requirements by conducting annual desk and/or on-site audits of each vendor in the entire recycling chain. Audit frequency may be increased if there is a concern. All ongoing audits shall be documented, and records maintained on the R2 Desk Audit Checklist or R2 On-Site Audit Checklist. Verification of completion is recorded on the Downstream Recycling Chain Flowchart.
